POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders, magnetic tapes, and disc packs.

SAFEGUARDS:

1. Authorized users: Access is limited to authorized HRSA and contract personnel responsible for administering the program. Authorized personnel include the System Manager and Project Officer, and the HRSA Automated Information System (AIS) Systems Security Officer; and the program managers/program specialists who have responsibilities for implementing the program. Both HRSA and its contractor(s) shall maintain current lists of authorized users.

2. Physical safeguards: Magnetic tapes, disc packs, computer equipment, and hard-copy files are stored in areas where fire and life safety codes are strictly enforced. All automated and nonautomated documents are protected on a 24-hour basis in locked storage areas. Security guards perform random checks on the physical security of the records storage area. The OPTN and SRTR contractors are required to maintain off site a complete copy of the system and all necessary files to run the computer organ donor-recipient match and update software.

3. Procedural safeguards: A password is required to access the terminal and a data set name controls the release of data to only authorized users. All users of personal information in connection with the performance of their jobs protect information from public view and from unauthorized personnel entering an unsupervised office. All authorized users must sign a nondisclosure statement. Access to records is limited to those staff members trained in accordance with the Privacy Act and Automated Data Processing (ADP) security procedures. The contractor(s) is required to assure that the confidentiality safeguards of these records will be employed and that it complies with all provisions of the

Privacy Act. All individuals who have access to these records must have the appropriate ADP security clearances. Privacy Act and ADP system security requirements are included in the contracts. The HRSA Project Officer(s) and the System Manager(s) oversee compliance with these requirements. The HRSA authorized users will make visits to the contractors' facilities to assure security and Privacy Act compliance. The contractor(s) is/are required to adhere to a HRSA approved system security plan.

These are the same as notification procedures. Requestors should also

provide a reasonable description of the record being sought. Requestors also may request an accounting of disclosures that have been made of their records, if any. A parent or guardian who requests notification of, or access to, a minor's/incompetent person's medical record shall designate a family physician or other health professional (other than a family member) to whom the record, if any, will be sent.
