Since the location of manufacturing of Product X is considered to be the location of Branch A rather than Branch B, Branch B, treated as the remainder of FS, does not qualify for the manufacturing exception from foreign base company sales income contained in paragraph (a)(4) of this section. Since the sale of Product X is for use, consumption, or disposition outside of Country B, the income from the sale of Product X is foreign base company sales income.” is corrected to read “company sales income. Branch B, treated as the remainder of FS, must therefore independently qualify for the manufacturing exception from foreign base company sales income contained in paragraph (a)(4) of this section or the income from the sale of Product X will be foreign base company sales income.”.

25. On page 10729, column 1, § 1.954–3(b)(2)(ii)(a), lines 1 through 7 from the bottom of the paragraph, the language “tested against the effective rate of tax that would apply to such income if it were earned in the jurisdiction of such other branch or similar establishment or the remainder of the controlled foreign corporation under § 1.954–3(b)(1)(i)(b) or (ii)(b) of this section.” is corrected to read “tested under the principles of § 1.954–3(b)(1)(i)(b) or (ii)(b) of this section against the effective rate of tax that would apply to such income if it were earned in the jurisdiction of such other branch or similar establishment or the remainder of the controlled foreign corporation.”.

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed Income Tax Regulations (26 CFR part 1) under sections 430(a), 430(c), 430(e), and 430(j), as added to the Internal Revenue Code (Code) by the Pension Protection Act of 2006 (PPA ’06), Public Law 109–280 (120 Stat. 780). In addition, this document contains proposed Excise Tax Regulations (26 CFR part 54) under section 4971.

Section 412 provides minimum funding requirements that generally apply for pension plans (including both defined benefit pension plans and money purchase pension plans). PPA ’06 makes extensive changes to those minimum funding requirements that generally apply for plan years beginning on or after January 1, 2008. Section 430, which was added by PPA ’06, specifies the minimum funding requirements that apply to single employer defined benefit pension plans (including multiple employer plans) pursuant to section 412.¹

¹ Section 302 of the Employee Retirement Income Security Act of 1974, as amended (ERISA), sets forth funding rules that are parallel to those in Code section 412, and section 303 of ERISA sets forth additional funding rules for single employer plans that are parallel to those in section 430 of the Code. Under section 101 of Reorganization Plan No. 4 of 1978 (43 FR 47713) and section 302 of ERISA, the Secretary of the Treasury has interpretive jurisdiction over the subject matter addressed in these proposed regulations for purposes of ERISA, as well as the Code. Thus, these proposed Treasury regulations issued under section 430 of the Code would apply as well for purposes of section 303 of ERISA.
