

(2) Fees will not be charged if the total amount to process your request is \$30.00 or less.

(b) Criteria for estimating cost of computerized records:

(1) Costs for processing a data request will be calculated using the full cost method as referenced in § 204.5.

(2) Itemized listing of operations required to process the job will be maintained (*i.e.*, time for central processing unit, input/output remote terminal, storage, plotters, printing, tape/disk mounting, etc.) with associated costs.

(3) Mailing costs for services (DHL, Express Mail, etc.) when request specifically specifies a means more expensive than first class mail.

Dated: April 24, 2008.

Patricia L. Toppings,

*OSD Federal Register Liaison Officer,
Department of Defense.*

BILLING CODE 5001-06-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R04-OAR-2007-0532-200810, FRL-8560-2]

Approval and Promulgation of Implementation Plans; Alabama Prevention of Significant Deterioration and Nonattainment New Source Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is taking final action to approve revisions to the Alabama State Implementation Plan (SIP) submitted by the State of Alabama on June 16, 2006. The SIP revisions modify Alabama's Prevention of Significant Deterioration (PSD) regulations in the Alabama SIP to address changes to the federal New Source Review (NSR) regulations, which were promulgated by EPA on December 31, 2002, and reconsidered with minor changes on November 7, 2003 (commonly referred to as the "2002 NSR Reform Rules"). EPA proposed approval of these revisions on January 24, 2008; no comments were received on that proposal. The revisions include provisions for baseline emissions calculations, an actual-to-projected-actual methodology for calculating emissions changes, options for plantwide applicability limits, and recordkeeping and reporting requirements.

DATES: *Effective Date:* This rule will be effective June 2, 2008.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-R04-OAR-2007-0532. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30, excluding federal holidays.

FOR FURTHER INFORMATION CONTACT: For information regarding the Alabama State Implementation Plan, contact Ms. Stacy Harder, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. The telephone number is (404) 562-9042. Ms. Harder can also be reached via electronic mail at harder.stacy@epa.gov. For information regarding New Source Review, contact Ms. Gracy R. Danois, Air Permits Section, at the same address above. The telephone number is (404) 562-9119. Ms. Danois can also be reached via electronic mail at danois.gracy@epa.gov.

I. What Action Is EPA Taking?

EPA is taking final action to approve revisions to the Alabama SIP, which includes changes to Alabama's NSR program. On June 16, 2006, the State of Alabama, through the Alabama Department of Environmental Management (ADEM) submitted revisions to the Alabama SIP.

Specifically, the SIP revisions include changes to ADEM Administrative Code (AAC) Division 3 (Air Division), Chapter 14, entitled "Air Permits." ADEM submitted these revisions in response to EPA's December 31, 2002, revisions to the federal NSR program. EPA is now approving these SIP revisions with the exception of the requirements found in Rule 335-3-14-.04(2)(w)1, the portion of the definition of "significant" that establishes a significance threshold of 100 tons for all NSR regulated pollutants for which there is not a listed significant amount. On December 3, 2007, Alabama requested this portion of the definition not be approved in the SIP. Notably, the June 16, 2006, submittal also addressed the Clean Air Interstate Rule which EPA has already addressed in a separate action (October 1, 2007, 72 FR 55659).

On January 24, 2008 (73 FR 4133), EPA published a notice of proposed rulemaking (NPR) in the **Federal Register**, proposing to approve the Alabama SIP revisions regarding its NSR program. The January 24, 2008, NPR provides additional information about the proposed Alabama SIP revisions and the rationale for this final action. The public comment period for the proposed action ended on February 25, 2008. No comments were received on EPA's proposed action. EPA is now taking final action to approve the SIP revisions submitted by ADEM on June 16, 2006.

II. What Is the Background for This Action?

On December 31, 2002 (67 FR 80186), EPA published final rule changes to 40 Code of Federal Regulations (CFR) parts 51 and 52, regarding the Clean Air Act (CAA), PSD and NNSR programs. On November 7, 2003 (68 FR 63021), EPA published a notice of final action on its reconsideration of the 2002 rules. On June 13, 2007 (72 FR 32526), EPA took final action to revise the 2002 NSR Reform Rules to exclude the clean units and Pollution Control Project (PCP) provisions that were vacated by the United States Court of Appeals for the District of Columbia Circuit (D.C. Circuit Court) on June 24, 2005. The purpose of this action regarding the Alabama SIP is to approve the SIP submittal from the State of Alabama incorporating rule changes consistent with EPA's 2002 NSR Reform Rules.

The June 24, 2005, DC Circuit Court decision also involved a remand of the recordkeeping provisions of the 2002 NSR Reform Rules. On December 14, 2007, EPA issued a final rulemaking in response to the DC Circuit's remand establishing that "reasonable possibility" applies where source

emissions equal or exceed 50% of the CAA NSR significance levels for any pollutant. The rule was published in the **Federal Register** on December 21, 2007 (72 FR 72607). For further information, see, <http://www.epa.gov/nsr>.

The “reasonable possibility” standard identifies, for sources and reviewing authorities, the circumstances under which a major stationary source undergoing a modification that does not trigger major NSR must keep records. Alabama’s SIP revisions are approvable at this time because the Alabama rules are substantially the same as the current federal rules and EPA’s interpretation of the reasonable possibility standard did not result in any actual changes to the corresponding federal rule.

As is discussed in greater detail in the NPR, EPA reviewed the SIP revisions and determined that they were at least as stringent as the federal NSR program. Therefore, Alabama’s revisions are consistent with the federal NSR regulations published December 31, 2002 (67 FR 80186) and November 7, 2003 (68 FR 63021), with the one exception noted earlier regarding AAC Rule 335–3–14–.04(2)(w)1 which is no longer a part of the current SIP submittal. As a result, the SIP revisions are approvable pursuant to the CAA.

The January 24, 2008, NPR and the docket for this action provide more details about the SIP revisions being approved and the rationale for EPA’s final action. For additional information on EPA’s 2002 NSR Reform Rules, see 67 FR 80186 (December 31, 2002), and <http://www.epa.gov/nsr>.

III. Final Action

EPA is taking final action to approve changes to Alabama’s Rule 335–3–14–.04, with the exception of 335–3–14.04(2)(w)1, as submitted by ADEM on June 16, 2006, as revisions to the Alabama SIP.

IV. Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001). This action merely approves state law as meeting federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the

Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

This final rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (59 FR 22951, November 9, 2000). This action also does not have Federalism implications because it does not have substantial direct effects on the states, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves state and local rules implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the CAA. This rule also is not subject to Executive Order 13045 “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997), because it approves a state rule implementing a Federal standard.

In reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the state to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 30, 2008. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See, section 307(b)(2).)

[EPA–HQ–OAR–2008–0314; FRL–8559–9]

Extension of Deadline for Action on Section 126 Petition From Warrick County, IN, and the Town of Newburgh, IN

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA is extending by 6 months the deadline for EPA to take action on a petition submitted by Warrick County, Indiana and the Town of Newburgh, Indiana under section 126 of the Clean Air Act (CAA). The petition requests that EPA make a finding that a power plant (Cash Creek) proposed to be built in Henderson County, Kentucky will emit air pollutants that will significantly contribute to Warrick County and Newburgh, Indiana's nonattainment with the national ambient air quality standards (NAAQS) for ozone and fine particulate matter, or will significantly interfere with Warrick County and Newburgh, Indiana's ability to maintain its attainment of those standards. The petition requests that EPA establish emission limitations for the proposed power plant as a result of those findings. Under the CAA, EPA is authorized to grant a time extension for responding to the petition if EPA determines that the extension is necessary, among other things, to meet the purposes of the CAA's rulemaking requirements. By this action, EPA is making that determination.

DATES: This action is effective on April 24, 2008.

ADDRESSES: EPA has established a docket for this rulemaking under Docket

ID number EPA–HQ–OAR–2008–0314. All documents in the docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, e.g., confidential business information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy. Publicly available docket materials are available either electronically in <http://www.regulations.gov> or in hard copy at the EPA Docket Center EPA/DC, EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the EPA Docket Center is (202) 566–1742.

FOR FURTHER INFORMATION CONTACT: For general information and policy questions, contact Carla Oldham, Air Quality Planning Division, Office of Air Quality Planning and Standards, mail code C539–04, Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: 919–541–3347; fax number: 919–541–0824; e-mail address: oldham.carla@epa.gov. For legal questions contact Steven Silverman, U.S. EPA, Office of General Counsel, Mail Code 2344A, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, telephone (202) 564–5523, e-mail at silverman.steven@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

This is a procedural action to extend the deadline for EPA to respond to a petition from Warrick County, Indiana and the Town of Newburgh, Indiana filed under CAA section 126. EPA received the section 126 petition on March 6, 2008. The petition requests that EPA make a finding that the Cash

Creek power plant proposed to be built in Henderson County, Kentucky will emit air pollutants that will significantly contribute to Warrick County and Newburgh, Indiana's nonattainment with the NAAQS for ozone and fine particulate matter or will significantly interfere with Warrick County and Newburgh, Indiana's ability to maintain its attainment of those standards. The petition requests that EPA establish emission limitations for the proposed power plant as a result of those findings.

Section 126(b) authorizes States or political subdivisions to petition EPA to find that a major source or group of stationary sources in upwind states emits or would emit any air pollutant in violation of the prohibition of section 110(a)(2)(D), by contributing significantly to nonattainment or maintenance problems in downwind states. If EPA makes such a finding, EPA is authorized to establish Federal emissions limits for the sources which so contribute.

Under section 126(b), EPA must make the finding requested in the petition, or must deny the petition, within 60 days of its receipt. Under section 126(c), any existing sources for which EPA makes the requested finding must cease operations within 3 months of the finding, except that those sources may continue to operate if they comply with emission limitations and compliance schedules that EPA may provide to bring about compliance with the applicable requirements.

Section 126(b) further provides that EPA must allow a public hearing for the petition. EPA's action under section 126 is also subject to the procedural requirements of CAA section 307(d). See section 307(d)(1)(N). One of these requirements is notice-and-comment rulemaking, under section 307(d)(3).

In addition, section 307(d)(10) provides for a time extension, under certain circumstances, for rulemaking subject to section 307(d). Specifically, section 307(d)(10) provides:
