

Antidumping Duty Administrative Review, 64 FR 9979, 9980 (March 1, 1999).

In its January 31, 2008, submission, myonic provided information to demonstrate that myonic is the successor-in-interest to MKL. Myonic submitted a notarized copy of the minutes from the December 11, 2001, meeting of myonic's shareholders memorializing the name change from MKL to myonic. See exhibit D of myonic's January 31, 2008, submission. Myonic also submitted its Articles of Association demonstrating that myonic continued to produce and market subject merchandise after the name change. See exhibit E of myonic's January 31, 2008, submission. Further, myonic provided a letter it sent to its customers informing them of the name change and that the company's production of subject merchandise would continue. See exhibit F of myonic's January 31, 2008, submission. Myonic also submitted its June 19, 2006, Articles of Association demonstrating that on June 1, 2006, all stock of myonic was purchased by myonic Holding GmbH. See exhibit G of myonic's January 31, 2008, submission.

Additional information in myonic's March 24, 2008, and April 8, 2008, submissions shows that myonic's management, production facilities, suppliers, and customer base are consistent with those of MKL. As such, we conclude that myonic's request for a changed-circumstances review demonstrates that no major changes have occurred with respect to MKL's management, production facilities, suppliers, or customer base as a result of MKL's name change to myonic or the purchase of all of myonic's stock by myonic Holding GmbH. Therefore, we preliminarily find that myonic is the successor-in-interest to MKL and, as such, is entitled to MKL's cash-deposit rate with respect to entries of subject merchandise.

SUPPLEMENTARY INFORMATION:

Background: On February 29, 2008, Dongkuk Steel Mill Co., Ltd. (DSM) (respondent) requested that the Department of Commerce (the Department) conduct an administrative review of the countervailing duty order on certain cut-to-length carbon-quality steel plate from Korea with respect to DSM for the period of January 1, 2007, through December 31, 2007.

On March 31, 2008, the Department initiated the review. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews, Request for Revocation in Part, and Deferral of Administrative Review*, 73 FR 16837

(March 31, 2008). On April 4, 2008, DSM withdrew its request for a review pursuant to section 19 CFR 351.213(d)(1).

Scope of Order

The products covered by this order are certain hot-rolled carbon-quality steel: (1) universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm but not exceeding 1250 mm, and of a nominal or actual thickness of not less than 4 mm, which are cut-to-length (not in coils) and without patterns in relief, of iron or non-alloy-quality steel; and (2) flat-rolled products, hot-rolled, of a nominal or actual thickness of 4.75 mm or more and of a width which exceeds 150 mm and measures at least twice the thickness, and which are cut-to-length (not in coils). Steel products to be included in the scope of the order are of rectangular, square, circular or other shape and of rectangular or non-rectangular cross-section where such non-rectangular cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been beveled or rounded at the edges. Steel products that meet the noted physical characteristics that are painted, varnished or coated with plastic or other non-metallic substances are included within this scope. Also, specifically included in the scope of the order are high strength, low alloy (HSLA) steels. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. Steel products to be included in this scope, regardless of Harmonized Tariff Schedule of the United States (HTSUS) definitions, are products in which: (1) iron predominates, by weight, over each of the other contained elements; (2) the carbon content is two percent or less, by weight; and (3) none of the elements listed below is equal to or exceeds the quantity, by weight, respectively indicated: 1.80 percent of manganese, or 1.50 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.41 percent of titanium, or 0.15 percent of vanadium, or 0.15 percent zirconium. All products that meet the written physical description, and in which the chemistry quantities do not equal or exceed any one of the levels listed above, are within the scope

of this order unless otherwise specifically excluded. The following products are specifically excluded from the order: (1) products clad, plated, or coated with metal, whether or not painted, varnished or coated with plastic or other non-metallic substances; (2) SAE grades (formerly AISI grades) of series 2300 and above; (3) products made to ASTM A710 and A736 or their proprietary equivalents; (4) abrasion-resistant steels (*i.e.*, USS AR 400, USS AR 500); (5) products made to ASTM A202, A225, A514 grade S, A517 grade S, or their proprietary equivalents; (6) ball bearing steels; (7) tool steels; and (8) silicon manganese steel or silicon electric steel.

The merchandise subject to the order is currently classifiable under the HTSUS under subheadings:

7208.40.3030, 7208.40.3060,
7208.51.0030, 7208.51.0045,

Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise covered by the order is dispositive.

Rescission of Review

If a party that requested a review withdraws the request within 90 days of the date of publication of the notice of initiation of the requested review, the Secretary will rescind the review, in whole or in part, pursuant to 19 CFR 351.213(d)(1). In this case, DSM withdrew its request for an administrative review within 90 days from the date of initiation. No other interested party requested a review of DSM and we have received no comments regarding the respondent's withdrawal of its request for a review. Therefore, consistent with 19 CFR 351.213(d)(1), we are rescinding this review of the countervailing duty order on certain cut-to-length carbon-quality steel plate from Korea with respect to DSM.

The Department intends to issue assessment instructions to U.S. Customs and Border Protection (CBP) 15 days after the publication of this notice. The Department will direct CBP to assess countervailing duties at the cash deposit rate in effect on the date of entry for

entries during the period January 1, 2007, through December 31, 2007.

Atlantic Highly Migratory Species; Atlantic Shark Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Stock Status Determinations; Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS); request for comments.

SUMMARY: Based on the 2007 small coastal sharks (SCS) stock assessment, NMFS is declaring blacknose sharks to be overfished with overfishing occurring. As such, NMFS announces its intent to prepare an EIS under the National Environmental Policy Act (NEPA). This EIS would assess the potential effects on the human environment of the proposed action taken to rebuild blacknose sharks and prevent overfishing per the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The EIS would amend the 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP) and examine management alternatives available to rebuild blacknose sharks. NMFS is requesting comments on a range of commercial and recreational management measures in both directed and incidental fisheries including, but not limited to, quota levels, regional and seasonal quotas, retention limits, minimum sizes, and time/area closures.

DATES: Comments on this action must be received no later than 5 p.m., local time, on August 5, 2008.

ADDRESSES: Written comments on this action should be mailed to Karyl Brewster-Geisz, Highly Migratory Species Management Division by any of the following methods:
