SUPPLEMENTARY INFORMATION: On March 10, 2008, the Secretary published final regulations at 25 CFR part 224, which provide that Indian tribes may enter into Tribal Energy Resource Agreements (TERAs) with the Secretary. Under approved TERAs, at their discretion, tribes may enter into leases, business agreements, and rights-of-way for energy resource development without Secretarial review or approval. The purpose of the Committee is to advise the Secretary and the Assistant Secretary—Indian Affairs on Indian energy policy matters.

The Committee will meet twice yearly. All Committee representatives are expected to attend each meeting. If selected for Committee membership, tribal representatives must agree that they are able and will inform other interested tribes in their regions of advisory committee activities and bring to the attention of the advisory committee energy resource development concerns of other tribes in their regions.

Nominations for each tribal representative must state the nominee's official status with the tribal government (elected official or designated employee with authority to act on an elected official's behalf). Nominations must include relevant background and experience in energy resource development and must include a current resume. Nominations must be accompanied by a tribal resolution that recommends that the nominee be appointed to the Tribal Energy Policy Advisory Committee.

Comments Received on the 60-Day Federal Register Notice

The NPS published a 60-Day Notice to solicit public comments on this ICR entitled "Appalachian Trail Management Partner Survey" in the **Federal Register** on January 30, 2008 (73 FR 5588 5589). The comment period closed on March 31, 2008. After multiple notifications to stakeholders requesting comments, the NPS received one comment as a result of the publication of this 60-Day **Federal Register** Notice.

One public comment was received on the proposed Appalachian Trail Management Partner Survey (ATMPS). The comment expressed concern over tax dollars being spent on this study. A response was sent to the individual, explaining the necessity of the survey for the NPS to work with its partners to better manage the Appalachian Trail lands. No further comment has been received.

SUPPLEMENTARY INFORMATION:

Title: Appalachian Trail Management Partner Survey.

Survey Bureau Form Number(s): None.

OMB Number: To Be requested.

Expiration Date: To Be requested.

Type of Request: New collection.

Description of Need: The NPS Act of 1916, 38 Stat 535, 16 U.S.C. 1, *et seq.*, requires that the NPS preserve national parks for the use and enjoyment of present and future generations. The Appalachian National Scenic Trail is an unusual unit of the national park system, managed through a decentralized volunteer-based cooperative management system involving eight national forests, six other national park units, agencies in fourteen states, the Appalachian Trail Conservancy and citizen volunteers in 30 affiliated trail club organizations. The Government Performance and Results Act (GPRA) of 1993 (Pub. L. 103-62) requires that the NPS develop goals and measure performance related to these goals. The Appalachian Trail Management Partner Survey (ATMPS) measures performance toward those goals through a partner satisfaction survey. The project is an element of the NPS Strategic Plan and the Department of the Interior (DOI) Strategic Plan.

The purpose of the ATMPS is to track the satisfaction of federal, state, and not-for-profit partner organizations and agencies receiving support from the Appalachian Trail Park Office (ATPO) to protect trail resources and provide for

the public enjoyment and visitor experience of the Appalachian National Scenic Trail. The ATPO provides support to state and federal agencies, and not-for-profit organizations to assist them in fulfilling shared and delegated management activities in the management of the Appalachian National Scenic Trail. Achievement of on-the-ground results depends on the actions of these partner agencies and organizations. Progress towards management goals is measured by a satisfaction survey where key partners evaluate quality of support provided by ATPO. This effort is required by GPRA and other NPS and DOT strategic planning efforts. Data from the proposed survey is needed to assess performance regarding NPS GPRA goal IIbO. NPS performance on all goals measured in this study will contribute to DOI Department-wide performance reports.

Automated data collections: This information will be collected via electronic mail surveys.

Description of respondents: Respondents include representatives from partner groups, including non-profit organizations and State and Federal agencies.

Estimated average number of respondents: 150 respondents (100 respondents and 50 non-respondents).

Estimated average number of responses: 150 responses (100 responses and 50 non-responses).

Estimated average burden hours per response: 10 minutes for respondents and 1 minute for non-respondents.

Frequency of Response: 1 time per respondent.

Estimated total annual reporting burden: 26 hours.

Comments are invited on: (1) The practical utility of the information being gathered; (2) the accuracy of the burden hour estimate; (3) ways to enhance the quality, utility, and clarity of the information being gathered; and (4) ways to minimize the burden to respondents, including use of automated information collection techniques or other forms of information. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: April 15, 2008.
