

their agreements for all jurisdictional services (including market-based power sales, cost-based power sales, and transmission service) and providing transaction information (including rates) for short-term and long-term power sales during the most recent calendar quarter.²

In the April 30 Order, the Commission directed the public utilities it had identified to file the required reports within 15 days of the date of issuance of the order or face revocation of their authority to sell power at

market-based rates and termination of their electric market-based rate tariffs.³

The time period for compliance with the April 30 Order has elapsed. The two companies identified in the April 30 Order (Dunhill Power, L.P. and Exel Power Sources, LLC) have failed to file their delinquent Electric Quarterly Reports.

The Commission hereby withdraws the market-based rate authority and terminates the electric market-based rate

tariff for each of the 90 companies captioned above in this Notice.

Kimberly D. Bose,
Secretary.

On April 30, 2008, PJM Interconnection L.L.C. (PJM) filed a motion to intervene out-of-time in the above-referenced dockets for the purpose of submitting its current simultaneous import capability limit (SIL) study of the PJM regional transmission organization (RTO) footprint, with the exception of the Eastern PJM submarket (PJM-East). The April 30 PJM filing was made in response to an April 4, 2008 request for

additional information regarding the PJM RTO Filers' updated market power analyses filed on January 14, 2008.¹

Specifically, the April 4 data request directed the PJM RTO Filers to provide a SIL study consistent with Order No. 697, or provide a SIL study done by PJM that it believes adequately addresses the principles for how to measure SIL.

¹ PSEG Energy Resources & Trade LLC, Docket No. ER99-3151-008 (April 4, 2008) (unpublished letter order) (April 4 data request).

In its April 30 filing, PJM committed to provide a further SIL study for the PJM-East submarket in a subsequent Commission filing.

On May 9, 2008, a Notice of Conference Call was issued. That notice also granted the PJM RTO Filers and PJM an extension of time in which to respond further to the April 4 data request (e.g., providing a SIL study for the PJM-East submarket) and stated that the Commission would issue a future

notice setting forth a timeline for compliance. The conference call took place on May 15, 2008.

Regarding PJM's commitment to file a SIL study for the PJM-East submarket, PJM should submit that SIL study for the PJM-East submarket within 10 days of the date of this notice, and it may use the same methodology as it used in its April 30, 2008 filing. Once the PJM-East SIL study has been filed, a notice will be issued soliciting comments on both that study and the PJM SIL study that was filed on April 30, 2008. That notice will also instruct the PJM RTO Filers on when they must comply with the remaining requirements of the April 4 data request.

Secretary.

ACTION: Notice of Submission for OMB Approval; Request for Comments.

SUMMARY: This notice announces that Western Area Power Administration (Western), an agency of the Department of Energy (DOE), has sent an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review, comment and approval. Western submitted the ICR as required under the Paperwork Reduction Act of 1995.¹ The ICR described below identifies the proposal including the anticipated public burdens. On January 30, 2008, Western published a notice in the **Federal Register** inviting public comments on

the ICR.² That notice provided a 60 day comment period. Western has included a summary of the comments and Western's responses below. As described below, Western invites interested entities to submit comments to OMB.

Western is collecting this data to properly perform its function of marketing a limited amount of Federal hydropower. Western will use the collected data to evaluate who will receive an allocation of Federal power.

Western notes the Paperwork Reduction Act process and associated **Federal Register** notice is a process whereby Western obtains approval from OMB to collect information from the public. It is a legal requirement that Western must comply with before Western can request potential preference customers to submit an application for power. The Paperwork Reduction Act process is not the process whereby interested parties request an allocation of federal power. The allocation of power from Western is outside the scope of this process and is completed in a separate process by each Western Region, when required.

DATES: To assure consideration, comments regarding this collection must be received on or before July 2, 2008. The Paperwork Reduction Act requires OMB to make a decision on the ICR between 30-60 days after this publication.
