

for the proper performance of our functions.

- Evaluate the accuracy of our estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of technology.

Abstract of proposed collection: The export, temporary import, temporary export and brokering of defense articles, defense services and related technical data are licensed by the Directorate of Defense Trade Controls in accordance with the International Traffic in Arms Regulations (22 CFR parts 120–130) and section 38 of the Arms Export Control Act. Those of the public who manufacture or export defense articles, defense services, and related technical data, or the brokering thereof, must register with the Department of State. Persons desiring to engage in export, temporary import, and brokering activities must submit an application or written request to conduct the transaction to the Department to obtain a decision whether it is in the interests of U.S. foreign policy and national security to approve the transaction. Also, registered brokers must submit annual reports regarding all brokering activity that was transacted, and registered manufacturers and exporter must maintain records of defense trade activities for five years.

Methodology: These forms/information collections may be sent to the Directorate of Defense Trade Controls via the following methods: Electronically, mail, personal delivery, and/or fax.

BILLING CODE 4810–25–P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Currituck and Dare Counties, NC

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Rescinding of Notice of Intent and Draft Environmental Impact Statement (DEIS).

SUMMARY: The FHWA is issuing this notice to advise the public that we are rescinding the notice of intent and the public notice to prepare an environmental impact statement (EIS) for a proposed highway project in Currituck and Dare Counties, North Carolina.

FOR FURTHER INFORMATION CONTACT: Mr. George Hoops, P.E., Major Projects Engineer, Federal Highway Administration, 310 Bern Avenue, Suite 410, Raleigh, North Carolina 27601–1418, Telephone: (919) 747–7022.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the North Carolina Department of Transportation (NCDOT) and the North Carolina Turnpike Authority (NCTA), is rescinding the notice of intent to prepare an EIS for a proposed bridge

and approach roadway connecting U.S. 158 on the mainland to NC 12 on the Outer Banks, crossing Currituck Sound. On July 6, 1995, FHWA issued a notice of intent to prepare an environmental impact statement (EIS) for a Mid-Currituck Sound Bridge project in Currituck and Dare Counties, North Carolina. The FHWA, in cooperation with the NCDOT, issued a Draft Environmental Impact Statement (DEIS) on the project in January 1998. FHWA and NCDOT held a public hearing and provided a comment period on the DEIS.

Since the 1998 DEIS, there have been several changes in the project including the expansion of the project study area, modification of the purpose and need statement, and analysis of additional alternatives. During this time period, state legislation and plans, including the North Carolina Intrastate System and the North Carolina Strategic Highway Corridor System, have also been developed or amended to incorporate the proposed project. In 2006, the project was adopted by the North Carolina Turnpike Authority (NCTA) for consideration as a candidate toll project, and the environmental studies for the project are now being completed by NCTA, in coordination with FHWA and NCDOT.

In light of these changes the FHWA is now rescinding the notice of intent and 1998 DEIS. The FHWA, NCDOT, and NCTA plan to prepare a new Draft EIS for the proposed project. A notice of intent to prepare the EIS will be issued subsequent to this rescinding notice. The new Draft EIS will include a toll alternative among the full range of alternatives that will be analyzed. Comments or questions concerning the decision to not prepare Final EIS should be directed to FHWA at the address provided above. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

Major Projects Engineer, Raleigh, North Carolina.

Federal Register (65 FR 19476, Apr. 11, 2000). This statement is also available at <http://Docketinfo.dot.gov>.

Background

On March 31, 2008, FMCSA published a notice of receipt of Federal diabetes exemption applications from twenty-nine individuals, and requested comments from the public (73 FR 16946). The public comment period closed on April 30, 2008 and one comment was received.

FMCSA has evaluated the eligibility of the twenty-nine applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

Diabetes Mellitus and Driving Experience of the Applicants

The Agency established the current standard for diabetes in 1970 because several risk studies indicated that diabetic drivers had a higher rate of crash involvement than the general population. The diabetes rule provides that "A person is physically qualified to drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control" (49 CFR 391.41(b)(3)).

FMCSA established its diabetes exemption program, based on the Agency's July 2000 study entitled "A Report to Congress on the Feasibility of a Program to Qualify Individuals with Insulin-Treated Diabetes Mellitus to Operate in Interstate Commerce as Directed by the Transportation Act for the 21st Century." The report concluded that a safe and practicable protocol to allow some drivers with ITDM to operate CMVs is feasible. The 2003 Notice (68 FR 52442) in conjunction with the November 8, 2005 (70 FR 67777) **Federal Register** Notice provides the current protocol for allowing such drivers to operate CMVs in interstate commerce.

These twenty-nine applicants have had ITDM over a range of 1 to 35 years. These applicants report no hypoglycemic reaction that resulted in loss of consciousness or seizure, that required the assistance of another person, or resulted in impaired cognitive function without warning symptoms in the past 5 years (with one year of stability following any such episode). In each case, an endocrinologist has verified that the driver has demonstrated willingness to properly monitor and manage their diabetes, received education related to
