

apparel nylon filaments to Mexico over two years earlier.

That the subject workers were not threatened with separation until November 14, 2006 (more than two years after the subject firm's shift of production of nylon apparel filament to Mexico) and that the customer service representatives have been replaced by workers in Brazil and Delaware, SAR 3, 8, 11, 18, and not by workers in Mexico, support the Department's findings that the subject workers' employment with the subject firm was not dependent upon domestic production and that the subject firm's shift of nylon apparel filament production to Mexico was not a factor in the subject workers' separations.

Based on previously-submitted material and information provided during the remand investigation, the Department finds that, while the subject firm shifted its production of nylon apparel filament to Mexico, that event was not a cause of the subject workers' separations. Therefore, the Department determines that the group eligibility to apply for benefits under the Trade Act of 1974, as amended, has not been met.

Because the administrative record clearly demonstrates that the shift of production to a foreign country was not a cause to the workers' separations, the Department has not addressed the impact of the fact that no production took place at the subject firm during the twelve month period prior to filing of the petition.

In addition, in accordance with Section 246 of the Trade Act of 1974, as amended, the Department herein presents the results of its investigation regarding certification of eligibility to apply for ATAA.

In order to apply for ATAA, the subject worker group must be certified eligible to apply for TAA. Since the workers are denied eligibility to apply for TAA, they cannot be certified eligible to apply for ATAA.

Conclusion

After careful review of the findings of the remand investigation, I affirm the notice of negative determination of eligibility to apply for worker adjustment assistance for workers and former workers of Invista, S.A.R.L., Nylon Apparel Filament Fibers Group, A Subsidiary of Koch Industries, Inc., Chattanooga, Tennessee.

Signed at Washington, DC this 2nd day of June 2008.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

Saint-Gobain Vetrotex America, Including On-Site Leased Workers From Industrial Outsourcing, Wichita Falls, TX; Notice of Revised Determination on Reconsideration of Alternative Trade Adjustment Assistance

By letter dated May 2, 2008, a company official of Saint-Gobain Vetrotex America requested administrative reconsideration regarding Alternative Trade Adjustment Assistance (ATAA) applicable to workers of the subject firm. The negative determination was signed on April 25, 2008. The notice of affirmative determination for ATAA was erroneously published in the **Federal Register** on May 13, 2008 (73 FR 27560).

The workers of Saint-Gobain Vetrotex America, Wichita Falls, Texas were certified eligible to apply for Trade Adjustment Assistance (TAA) on April 25, 2008. The decision was amended to include on-site leased workers from Industrial Outsourcing on May 21, 2008. The amended version of the determination was published in the **Federal Register** on May 29, 2008 (73 FR 30976).

The initial ATAA investigation determined that workers in the workers' firm possess skills that are easily transferrable.

In the request for reconsideration, the company official stated that the information provided by the subject firm in the initial investigation was inaccurate and that skills of the workers employed at the subject firm are not easily transferrable to other businesses within the local commuting area. The company official provided sufficient information confirming this statement.

Additional investigation has determined that the workers possess skills that are not easily transferable and that the conditions within the industry are adverse. A significant number or proportion of the worker group is age fifty years or over.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that the requirements of Section 246 of the Trade Act of 1974, as amended, have been met for workers at the subject firm.

In accordance with the provisions of the Act, I make the following revised determination:

All workers of Saint-Gobain Vetrotex America, including on-site leased workers from Industrial Outsourcing, Wichita Falls, Texas, who became totally or partially separated from employment on or after March 19, 2007 through April 25, 2010, are eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed in Washington, DC this 2nd day of June, 2008.

Certifying Officer, Division of Trade Adjustment Assistance.

NUCLEAR REGULATORY COMMISSION

Notice; Applications and Amendments to Facility Operating Licenses Involving Proposed No Significant Hazards Considerations and Containing Sensitive Unclassified Non-Safeguards Information or Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information or Safeguards Information

I. Background

Pursuant to section 189a. (2) of the Atomic Energy Act of 1954, as amended

(the Act), the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this notice. The Act requires the Commission publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This notice includes notices of amendments containing sensitive unclassified non-safeguards information (SUNSI) or safeguards information (SGI).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of 60 days after the date of publication of this notice. The Commission may issue the license
