

SUPPLEMENTARY INFORMATION:**Authority**

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) (ESA), is based on a finding that such permits/modifications: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222–226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Species Covered in This Notice

This notice is relevant to federally threatened Central Valley steelhead (*Oncorhynchus mykiss*).

Application Received

EBMUD requests a five-year permit (1414) to conduct monitoring and research of anadromous (Central Valley steelhead) and resident fishes in the Lower Mokelumne River. The goals of the project include measuring the success of the Lower Mokelumne River Restoration Program and determining if the modifications of the Lower Mokelumne River Project are appropriate for conserving fish and wildlife resources in the Lower Mokelumne River. Data will also be collected for developing a Hatchery and Genetics Management Plan for the Mokelumne River Fish Hatchery steelhead artificial propagation program. EBMUD's monitoring and research will consist of trapping, sampling, measuring, weighing and tagging fish, fish carcass surveying, and collecting *O. mykiss* tissue samples.

**COMMITTEE FOR THE
IMPLEMENTATION OF TEXTILE
AGREEMENTS**
**Amendment to the 2008 Tariff
Preference Level (TPL) for Nicaragua
under the Central America-Dominican
Republic-United States Free Trade
Agreement (CAFTA-DR)**

June 23, 2008.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Amending the 2008 TPL for Nicaragua.

EFFECTIVE DATE: June 27, 2008.

SUMMARY: This notice reduces the 2008 TPL for Nicaragua to 87,897,046 square meters equivalent to account for the shortfall in meeting the one-to-one commitment for cotton and man-made fiber woven trousers exported from Nicaragua to the United States.

FOR FURTHER INFORMATION CONTACT:

Richard Stetson, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

SUPPLEMENTARY INFORMATION:

Authority: Annex 3.28 of the CAFTA-DR; Section 1634(a)(2) and (c)(2) of the Pension Protection Act of 2006 (P.L. 109-280); Presidential Proclamation 8111 of February 28, 2007.

BACKGROUND:

Annex 3.28 of the CAFTA-DR establishes a TPL for non-originating apparel goods of Nicaragua. Section 1634(a)(2) of the Pension Protection Act references the exchange of letters between the United States and Nicaragua, which establishes the one-to-one commitment for cotton and man-made fiber trousers. Section 1634(c)(2) of the Pension Protection Act authorizes the President to proclaim a reduction in the overall limit in the TPL if the President determines that Nicaragua has failed to comply with the one-to-one commitment. In Presidential Proclamation 8111, the President delegated to CITA the authority to determine whether Nicaragua had failed to comply with the one-to-one commitment and to reduce the overall limit in the TPL.

In an exchange of letters dated March 24 and 27, 2006, Nicaragua agreed that for each square meter equivalent of exports of cotton and man-made fiber woven trousers entered under the TPL, Nicaragua would export to the United States an equal amount of cotton and man-made fiber woven trousers made of U.S. formed fabric of U.S. formed yarn. This commitment for cotton woven trousers applies to the first 30 million square meters equivalent in 2007, the second year after the date of entry into force of the CAFTA-DR. Further, any shortfall in meeting this commitment that was not rectified by April 1 of the succeeding year would be applied against the TPL for the succeeding year. For 2007, the shortfall in meeting the one-to-one commitment is 12,102,954 square meters equivalent. This amount is being deducted from the 2008 TPL, resulting in a new TPL level for 2008 of 87,897,046 square meters equivalent.

R. Matthew Priest,

Chairman, Committee for the Implementation of Textile Agreements.

Comments

A 60-day public comment Notice was published in the **Federal Register** on March 4, 2008. This comment period ended May 4, 2008. No public comments were received from this notice.

Description

The Progress Report (PPR) was designed to assure that AmeriCorps*VISTA sponsors address and fulfill legislated program purposes, meet agency program management and grant requirements, and assess progress toward project plan goals agreed upon in the signing of the Memorandum of Agreement.

The Corporation seeks to revise the previously used Project Application to: (a) Better align the information requested on the Concept Paper and the Application; and (b) simplify the project plan while continuing to provide a robust tool for evaluating project performance.

The Corporation seeks to revise the previously used PPR to: (a) Reduce respondent burden; (b) enhance data elements collected via this information collection tool; (c) establish reporting

periods consistent with the Corporation's integrated grants management and reporting policies.

The current PPR is used by AmeriCorps*VISTA sponsors and grantees to report progress toward accomplishing work plan goals and objectives, reporting actual outcomes related to self-nominated performance measures meeting challenges encountered, describing significant activities, and requesting technical assistance. The PPR is also used to collect demographic data elements used by the Corporation for aggregate reporting purposes. Submissions of the PPR are done quarterly.

The revised PPR will be divided into two separate parts in order to reduce burden and to increase data integrity. All demographic data elements will be removed from the quarterly submissions and added to an annual VISTA Progress Report Supplement (VPRS) due 30 days after the end of a fiscal year. The quarterly reports will retain their purpose of providing monitoring and oversight of individual projects, while the annual data collection will serve the purpose of aggregate performance reporting for the VISTA program. Burden will be reduced by collecting the demographic data elements once a year instead of quarterly. Data integrity will be increased by tying data elements to specific fiscal years rather than project reporting cycles.
