SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation, *see* 5 CFR 1320.8(d), an agency must ask for public comment on the following:

- (i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- (ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- (iii) How to enhance the quality, utility, and clarity of the information to be collected; and

- (iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information:

Title: Petitions for Hearing on Notification and Remedy of Defects.

Type of Request: Renewal of an information collection.

OMB Control Number: 2127-0039.

Affected Public: Businesses or individuals.

Abstract: Sections 30118(e) and 30120(e) of Title 49 of the United States Code specify that any interested person may petition NHTSA to hold a hearing to determine whether a manufacturer of motor vehicles or motor vehicle equipment has met its obligation to notify owners, purchasers, and dealers of vehicles or equipment of a safety-related defect or noncompliance with a Federal motor vehicle safety standard in the manufacturer's products and to remedy that defect or noncompliance.

To implement these statutory provisions, NHTSA promulgated 49 CFR part 557, Petitions for Hearings on Notification and Remedy of Defects. Part 557 establishes procedures providing for the submission and disposition of petitions for hearings on the issues of whether the manufacturer has met its

obligation to notify owners, purchasers, and dealers of safety-related defects or noncompliances, or to remedy such defect or noncompliance free of charge.

Estimated Annual Burden: During NHTSA's last renewal of this information collection, the agency estimated it would receive two petitions a year, with an estimated one hour of preparation for each petition, for total of two burden hours per year.

Over the past three years, however, NHTSA has received one petition filed under 49 CFR Part 557. Our estimated time for preparation remains the same. Accordingly, we are revising our burden estimate for this collection of information to one burden hour per year.

Number of Respondents: 1.

Issued on January 15, 2008.

Director, Office of Defects Investigation.

Complete copies of each request for collection of information may be obtained at no charge from Laurence Long, NHTSA, 1200 New Jersey Avenue, SE., Rm. 48-220, NVS 211, Washington, DC 20590. Mr. Long's telephone number is (202) 366-6281.

Please identify the relevant collection of information by referring to its OMB Control Number.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected; and

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

Title: Consumer Complaint Information.

OMB Control Number: 2127-0008.

Affected Public: Individuals and households.

Abstract: Pursuant to Chapter 301 of Title 49 of the United States Code, manufacturers of motor vehicles and items of motor vehicle equipment must notify owners and provide a free remedy (i.e., a recall) when it has been determined that a safety-related defect exists in the manufacturer's product. NHTSA investigates possible safety defects and may order recalls. NHTSA solicits information from vehicle owners, which is used to identify and evaluate possible safety-related defects and provide evidence of the existence of such defects.

Consumer complaint information takes the form of a Vehicle Owner's Questionnaire (VOQ), which is a paper, self-addressed mailer that consumers complete. This mailer contains owner information, product information, failed component information, and incident information. It may also take the form of an electronic VOQ containing the same information as identified above, which can be submitted via NHTSA's Internet Web site or by calling the Department of Transportation's Auto Safety Hotline. Or, it may take the form of a consumer letter. All consumer complaint information, in addition to other sources of available information, is entered into the agency's database and reviewed by NHTSA staff to determine whether a safety-related defect trend or catastrophic failure is developing that would warrant the opening of a safety defect investigation.

Estimated Annual Burden: 8,657 hours.

Estimated Number of Respondents: 34,626.

Comments are invited on: Whether the proposed collection of information

is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Denial of Petition

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Denial of petition for rulemaking, defect, and noncompliance order, and denial of petition for hearing on notification and remedy of a safety related defect.

SUMMARY: This notice sets forth the reasons for the denials of two petitions submitted by Mr. Robin R. Harrill (petitioner). The first petition requested that the National Highway Traffic Safety Administration (NHTSA) order Polaris Industries, Inc. (Polaris) to assume all owner costs incurred to replace defective third gear assemblies on certain model year 1999 through 2001 Victory V92 motorcycles it manufactured. The second petition requested the NHTSA hold a hearing concerning the company's alleged failure to remedy the defective third gear assemblies on those motorcycles. Both petitions are denied as moot. Polaris has, since the filing of this petition, notified the affected motorcycle owners of the defect, and has made a free remedy available to those owners, including the petitioner, and has reimbursed all owners who had the recall repair work completed prior to the initiation of the recall.
