

pursuant to Article 3.25(4)-(5), when the President of the United States determines that a fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the territory of any Party. See Annex 3.25, Note; see also section 203(o)(4)(C) of the CAFTA-DR Act.

The CAFTA-DR Act requires the President to establish procedures governing the submission of a request and providing opportunity for interested entities to submit comments and supporting evidence before a commercial availability determination is made. In Presidential Proclamations 7987 and 7996, the President delegated to CITA the authority under section 203(o)(4) of CAFTA-DR Act for modifying the Annex 3.25 list. On March 21, 2007, CITA published final procedures it would follow in considering requests to modify the Annex 3.25 list (72 FR 13256).

On June 12, 2008, the Chairman of CITA received a commercial availability request from Sharretts, Paley, Carter & Blauvelt, P.C., on behalf of Fishman & Tobin, for certain polyester/nylon corduroy fabrics, of the specifications detailed below. On June 16, 2008, CITA notified interested parties of, and posted on its website, the accepted request and requested that interested entities provide, by June 26, 2008, a response advising of its objection to the commercial availability request or its ability to supply the subject product. CITA also explained that rebuttals to responses were due to CITA by July 2, 2008.

No interested entity filed a response advising of its objection to the request or its ability to supply the subject product.

In accordance with section 203(o)(4)(C) of the CAFTA-DR Act, and its procedures, as no interested entity submitted a response objecting to the request or expressing an ability to supply the subject product, CITA has determined to add the specified fabrics to the list in Annex 3.25 of the CAFTA-DR Agreement.

The subject fabrics are added to the list in Annex 3.25 of the CAFTA-DR Agreement in unrestricted quantities. A revised list has been published on-line.

Chapter 35) requires that the Director of OMB provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The Office of Management and Budget (OMB) may amend or waive the requirement for public consultation to the extent that public participation in

the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes this notice containing proposed information collection requests at the beginning of the Departmental review of the information collection. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. Title: Study of Pell Grant Recipients Who Transfer Among Eligible Institutions.

Abstract: This is a request for clearance for a survey of Pell Grant recipients who transferred from one institution to another. The general purpose of the survey is to determine the satisfaction of Pell Grant recipients with the financial aid process, while a more specific purpose is to identify and describe problems that Pell Grant recipients may encounter when attempting to transfer credits/courses from one institution to another.

Additional Information:

The U.S. Department of Education (the Department) requests that OMB grant an emergency clearance of the Study of Pell Grant Recipients Who Transfer Among Eligible Institutions.

This study is designed to determine the satisfaction of Pell Grant recipients with the financial aid process and to identify and describe problems that they may encounter when attempting to transfer credits/courses from one institution to another. This study is particularly relevant, given the timing of the following factors: First, the Congress is currently working on reauthorization for the Higher Education Act/ reauthorization will likely include new requirements for disclosing institutions' transfer of credit policies. Implementation of these requirements by the Department would be best informed by the results of this study. Second, the Department of Education currently has the best sample with the most recent contact information for the population of interest. Given that this population is particularly difficult to reach, there is significant risk that our sample may degrade if we delay data collection further. Finally the information obtained from this study will assist in improving the Department's customer service functions for students who receive federal student aid for the 2009-10 school year. Data from this study will inform messaging to federal student aid applicants who appear to transfer to ensure that the credits that they have earned are considered by their receiving institution. Delays in conducting this study would prevent the Department from providing this service to federal student aid applicants. We respectfully request OMB approval by July 17, 2008.
