SUPPLEMENTARY INFORMATION: In accordance with Section 7 of the Taylor Grazing Act, (43 U.S.C. 315f), and Executive Order No. 6910, the following described public land in Sweetwater County, Wyoming, has been examined and found suitable for classification for lease and conveyance under the provisions of the R&PP Act, as amended, (43 U.S.C. 869 et seq.):

Sixth Principal Meridian, Wyoming,

T. 20 N., R. 101 W.
Sec. 28, SE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$.

The land described contains 10.00 acres, more or less.

In accordance with the R&PP Act, the Sweetwater County Solid Waste Disposal District #1 (District) filed an application to purchase the above-described 10.00 acres of public land which has been leased to the District for solid waste disposal purposes since 1982. The land was classified for lease under the provisions of the R&PP Act and was originally leased as a sanitary landfill. The lease stopped operating as a landfill in 1992 and was converted to a solid waste transfer station. The transfer station has been in operation since then in conformance with the terms and conditions of the lease. Before the conveyance can occur, the land must be classified for conveyance under the provisions of the R&PP Act. The land is not needed for any Federal purpose. The conveyance is consistent with the Rock Springs Resource Management Plan dated August 8, 1986, and would be in the public interest. The patent, when issued, will be subject to the provisions of the R&PP Act and applicable regulations of the Secretary of the Interior, and will contain the following reservations to the United States:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945); and
2. All minerals, together with the right to prospect for, mine, and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

The patent will be subject to all valid existing rights documented on the official public land records at the time of patent issuance.

Classification Comments: Interested parties may submit comments involving

the suitability of the land for municipal and recreation uses. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Application Comments: Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision to convey under the R&PP Act, or any other factor not directly related to the suitability of the land for R&PP use.

Confidentiality of Comments: Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification of the land described in this notice will become effective September 23, 2008. The lands will not be available for conveyance until after the classification becomes effective.

Notice of Availability of the Record of Decision for the Fire, Fuels and Related Vegetation Management Direction Plan Amendment

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability.

SUMMARY: The Bureau of Land Management (BLM) announces the availability of the Record of Decision (ROD) for the Fire, Fuels and Related Vegetation Management Direction Plan Amendment located in south central and southeastern Idaho.

ADDRESSES: Copies of the Fire, Fuels and Related Vegetation Management Direction Plan Amendment ROD are available upon request from the Pocatello Field Office, Bureau of Land Management, 4350 Cliffs Drive, Pocatello, Idaho 83204, phone 208-478-6340, or it can be downloaded in its entirety at http://www.blm.gov/id/st/en/prog/planning/fire_fuels_and_related.html via the Internet.

FOR FURTHER INFORMATION CONTACT:

Terry Lee Smith, Project Manager, 4350 Cliffs Drive, Pocatello, Idaho 83204, phone 208-478-6340, e-mail Terry_Lee_Smith@blm.gov.

SUPPLEMENTARY INFORMATION: The Fire, Fuels and Related Vegetation Management Direction Plan Amendment (hereafter referred to as the Plan Amendment) was developed with broad public participation through a five-year collaborative planning process. It addresses management on approximately 5 million acres of public land comprising the Burley, Shoshone, Pocatello and Upper Snake Field Offices in south-central and southeastern Idaho. Twelve land use plans were amended upon signing of the ROD by the Idaho State Director.

The Plan Amendment incorporates the National Fire Plan's Cohesive Strategy and the Federal Wildland Fire Management Policy of 1995, as revised, into existing BLM land use plans. The purpose of the plan amendments is to:

- Establish fire management guidance, objectives, policies, and management actions;
- Identify resource goals and methods, including desired future condition of the fire-related vegetation resources, and management actions necessary to achieve objectives;
- Form the basis to update fire management plans and integrate them with allotment management plans, wildlife management plans, recreation management plans, Idaho Standards for Rangeland Health and Guidelines for Livestock Grazing, and other applicable plans, to the greatest extent possible; and
- Provide consistent land use plan level direction to enable incremental steps toward a long-term resource goal of conditions that minimize risk to human life and property and maintain or restore vegetation that is resistant to catastrophic wildfire.

The approved Plan Amendment is Alternative E in the Proposed Fire, Fuels and Related Vegetation Management Direction Amendment and Final EIS published in February 2008. The Plan Amendment institutes management direction that will promote the maintenance or restoration of the sagebrush steppe ecosystem and its associated wildlife species, including sage grouse, as well as the maintenance and restoration of forested vegetation types.

All protests received by the BLM regarding the plan amendment have been addressed. No inconsistencies with State or local plans, policies, or programs were identified during the Governor's consistency review of the proposed plan.

Dated: June 19, 2008.

Idaho State Director, Bureau of Land Management.
