

**5. The Naval Fire Control System (NFCS) is an automated mission planning system for Naval surface fire support, designed to coordinate and execute fire support weapons engagements. NFCS receives targeting data, generates a coordinated land tactical picture, and prepares fire plans. The NFCS hardware, software, and documentation are Unclassified.**

**6. All manuals and technical documentation disclosure will be limited to those necessary for operational use and organizational maintenance. No special tooling and/or manufacturing equipment will be sold in connection with this sale.**

**7. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.**

- (viii) **Date Report Delivered to Congress:**

\* as defined in Section 47(6) of the Arms Export Control Act.

## POLICY JUSTIFICATION

### Israel – Unleaded Gasoline, JP-8 Aviation Jet Fuel, and Diesel Fuel

**The Government of Israel has requested a possible sale of 28,000,000 gallons of unleaded gasoline, 186,000,000 gallons of JP-8 aviation jet fuel, and 54,000,000 gallons of diesel fuel. The estimated cost is \$1.3 billion.**

**This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.**

**The proposed sale of the JP-8 aviation fuel will enable Israel to maintain the operational capability of its aircraft inventory. The unleaded gasoline and diesel fuel will be used for ground forces' vehicles and other equipment used in keeping peace and security in the region. Israel will have no difficulty absorbing this additional fuel into its armed forces.**

**The proposed sale of these three types of fuel will not affect the basic military balance in the region.**

**The vendors are unknown at this time due to the competitive bid process for the supply source(s). There are no known offset agreements proposed in connection with this potential sale.**

**Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.**

**There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.**

#### DEPARTMENT OF DEFENSE

##### Department of the Navy

#### Record of Decision for the Final Environmental Impact Statement for the Shock Trial of USS MESA VERDE (LPD 19)

**AGENCY:** Department of the Navy, DoD.

**ACTION:** Notice of Record of Decision.

**SUMMARY:** The Department of Navy (Navy), pursuant to Section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, 42 United States Code (U.S.C.) 4321 *et seq.*; the regulations implementing NEPA issued by the Council on Environmental Quality

(CEQ), 40 Code of Federal Regulations (CFR) Parts 1500–1508; Navy regulations implementing NEPA procedures (31 CFR 775); and Presidential Executive Order 12114, hereby announces its decision to conduct a shock trial for USS MESA VERDE in the area of the Atlantic Ocean offshore of Naval Station Mayport, Jacksonville, Florida during the summer 2008 (June 21–September 20).

NEPA establishes the procedures Federal agencies must follow in analyzing environmental impacts of major Federal actions within the United States (U.S.) and its territories. Presidential Executive Order 12114 establishes the procedures Federal agencies must follow when environmental impacts of major Federal actions occur outside the U.S. or its territories including the global

commons. The Navy is the lead agency for the proposed action with cooperation from the National Marine Fisheries Service (NMFS), who agreed to be a cooperating agency for the Environmental Impact Statement.

USS MESA VERDE will undergo a shock trial in a manner consistent with the proposed action “Alternative Offshore Shock Trial Locations” as described in the Final Environmental Impact Statement (EIS). The Final EIS analyzed in detail three alternative offshore areas (Norfolk, Virginia; Mayport, Florida; and Pensacola, Florida) during all four seasons. The No-action alternative was also analyzed in the Final EIS.

The preferred alternative is to conduct a shock trial offshore of Mayport implementing protective measures (also referred to as mitigation measures) to
