

Nature of Extent of Confidentiality: This collection addresses information of a confidential nature for two of these reports. Respondents have requested and filed for confidential treatment of information they believe should be withheld from public inspection under 47 CFR Section 0.459 of the Commission's rules.

Needs and Uses: FCC Report 43-02 contains company-wide data for each account specified in the Uniform System of Accounts (USOA). It provides the annual operating results of the carriers' activities for every account in the USOA. In this report, we are adjusting the number of carriers filing the 43-02 ARMIS report from 28 respondents to 26 to reflect the sale of two respondents. We are also increasing the burden hours to reflect the Commission's requirement in its *Report and Order and Memorandum Opinion and Order (MOO)* released August 31, 2007. The Commission required AT&T, Qwest, and Verizon to include the imputation charges it debits to account 5280 accompanied by an explanatory footnote for each line item identifying the amount imputed in three ARMIS report filings. The *MOO* required this information in FCC Reports 43-01, ARMIS Annual Summary Report; 43-02, ARMIS USOA Report; and, 43-03, ARMIS Joint Cost Report.

ARMIS Report 43-05 collects data at the study level and holding company level and is designed to capture trends in service quality under price cap regulation. It provides service quality information in the areas of interexchange access service installation and repair intervals, local service installation and repair intervals, trunk blockage, and total switch downtime for price cap companies. We are adjusting the number of respondents submitting the 43-05 from 15 to 14 to reflect the merger of two respondents and the spin-off of their landline business.

ARMIS Report 43-07 is designed to capture trends in telephone industry infrastructure development under price cap regulation. It provides switch deployment and capabilities data. The information is also part of the data necessary to support the Commission's audit and other oversight functions. The data provide the necessary detail to enable the Commission to fulfill its regulatory responsibility. There are no changes to the ARMIS Report 43-07.

OMB Control Number: 3060-0410.

Title: Forecast of Investment Usage Report, FCC Report 495A; and Actual Usage of Investment Report. Report Number, FCC Reports 495B.

Form Numbers: FCC Reports 495-A and 495-B.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 70 respondents; 140 responses.

Estimated Time per Response: 40 hours.

Obligation to Respond: Mandatory—The ARMIS reporting requirements were established by the Commission in 1987 to facilitate the timely and efficient analysis of carrier operating costs and rates of return, to provide an improved basis for audits and other oversight functions, and to enhance the Commission's ability to quantify the effects of alternative policy proposals. Additional ARMIS Reports were added in 1991 and 1992. Incumbent LECs must submit the ARMIS reports to the Commission annually on or before April 1. See Reporting Requirements of Certain Class A and Tier I Telephone Companies (Parts 31, 43, 67 and 69 of the FCC's Rules), Order, 2 FCC Rcd 5770 (1987), modified on recon, 3 FCC Rcd 6375 (1988) (*ARMIS Order*). Also, see 47 CFR Part 43, Section 43.21.

Frequency of Response: Annual reporting requirement.

Total Annual Burden: 5,600 hours.

Total Annual Cost: \$0.00.

Privacy Act Impact Assessment: No impacts.

Nature of Extent of Confidentiality: This collection addresses information of a confidential nature. Respondents have requested and filed for confidential treatment of information they believe should be withheld from public inspection under 47 CFR Section 0.459 of the Commission's rules.

Needs and Uses: The 495A Report provides the forecast and resulting investment allocation incorporated in a carrier's cost support for its access tariff. The 495B Report enables the Commission's staff to monitor actual and forecasted investment use. These reports help ensure that the regulated operations of the carriers do not subsidize the nonregulated operations of those same carriers. This information is also a part of the data necessary to support the Commission's audit and other oversight functions. The data provide the necessary detail to enable the Commission to fulfill its regulatory responsibility. There are no changes to the ARMIS Reports 495A and 495B.

On April 24, 2008, the Commission granted AT&T's and BellSouth's petitions for forbearance from, among other things, certain ARMIS reporting requirements, conditioned upon Commission approval of an AT&T compliance plan describing how it will

continue to fulfill its statutory and regulatory obligations and the conditions of the order. See *Petition of AT&T Inc. for Forbearance Under 47 U.S.C. 160 From Enforcement of Certain of the Commission's Cost Assignment Rules*; *Petition of AT&T Inc. for Forbearance Under 47 U.S.C. 160 From Enforcement of Certain of the Commission's Cost Assignment Rules*, FCC 08-120 (rel. April 24, 2008). As a result, upon approval of the compliance plan, AT&T and BellSouth no longer will be required to file ARMIS Report 43-04, and FCC Forms 492, 495A and 495B. *Id.* at para. 12 n.36. Subsequently, on May 23, 2008, Verizon and Qwest requested that the Commission grant the same forbearance to them. The Commission has sought comment on that request, with comments filed June 26, 2008, and replies filed July 7, 2008. See *Comment Dates Set On Request of Verizon and Qwest to Extend Forbearance Relief from Cost Assignment Rules*, DA 08-1361 (rel. June 6, 2008).
