Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice; 60-day notice and request for comments; Extension, without change, of a currently approved collection, OMB Number 1660-0024, No Form.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a continuing information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning FEMA's request for information from the licensee of a nuclear power plant that is needed in order to form a decision as to whether or not a condition of "decline or fail" exists at the state and local government level in the preparation of emergency planning responses.

SUPPLEMENTARY INFORMATION: Executive Order 12657, dated November 18, 1988, charged the Federal Emergency Management Agency (FEMA) and other Federal agencies with emergency planning response in cases where State and local governments have declined or failed to prepare emergency plans. To implement Executive Order 12657, FEMA worked with the Nuclear Regulatory Commission (NRC) and other Federal agencies on the Federal

Radiological Preparedness Coordinating Committee to develop regulation 44 CFR 352, Commercial Nuclear Power Plants: Emergency Preparedness Planning. This regulation establishes policies and procedures for a licensee submission of a certification of "decline or fail," and for FEMA determination concerning Federal assistance to the licensee; and also establishes policies and procedures for providing Federal support for offsite planning and preparedness.
