

Scoping Process

The Forest Service plans to scope for information by contacting persons and organizations interested or potentially affected by the proposed action by using mailings, public announcements, and personal contacts. In addition, two separate public scoping meetings will be held to collect public input on the scope of this project:

Scoping Meeting #1: September 30, 2008, at the Ramada Inn, 4079 W. U.S. 10, Ludington, MI. An open house format will be used. The public is welcome between 4 p.m. and 7 p.m.

Scoping Meeting #2: October 1, 2008, at the Days Inn, 1462 U.S. Hwy. 31, Manistee, MI. An open house format will be used. The public is welcome between 4 p.m. and 7 p.m.

Comment Requested

This notice of intent initiates the scoping process which guides the development of the environmental impact statement. The primary purpose of scoping is to gather public comments, issues, and concerns regarding the proposed action. We are especially interested in information that might identify a specific undesired result of implementing the proposed action. Comments will be used to help formulate alternatives to the proposed action. Please make your written comments as specific as possible as they relate to the proposed action, and include your name, address, and if possible, telephone number and e-mail address. Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decisions under 36 CFR parts 215 or 217. Additionally, pursuant to 7 CFR 1.27(d), any persons may request the agency to withhold a submission from the public record by showing how the FOIA (Freedom of Information Act) permits such confidentiality. Persons requesting such confidentiality should be aware that under FOIA confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality and, should the request be denied, return the submission and notify the requester that the comments may be

resubmitted with or without name and address within 90 days.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days following the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. The Forest Service believes, at this early stage, that it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points. Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Dated: August 22, 2008.

Forest Supervisor.
