ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

SUPPLEMENTARY INFORMATION:

In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Where property is described as for "off-site use only" recipients of the property will be required to relocate the building to their own site at their own expense. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Theresa Rita, Division of Property Management, Program Support Center, HHS, room 5B-17, 5600 Fishers Lane, Rockville, MD 20857; (301) 443-2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a

suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 24 CFR part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to Mark Johnston at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R4-ES-2008-N0276; 40120-1112-0000-F2]

Receipt of Application for an Incidental Take Permit for the City Gate Project in Collier County, FL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Citygate Development, LLC and CG II, LLC (Applicants) request an incidental take permit (ITP) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act) for the take of the red-cockaded woodpecker (*Picoides borealis*) and the Florida panther (*Puma* (= *Felis concolor coryi*)). The Applicants propose to develop 240 acres of occupied red-cockaded woodpecker and Florida panther habitat to construct a mixed-use, nonresidential, commercial/industrial office park complex (Project) in Collier County, Florida. The modification of this habitat is expected to result in incidental take, in the form of harm, of one group of red-cockaded woodpeckers and harassment of the Florida panther. The Applicants' Habitat Conservation Plan (HCP) describes the mitigation and minimization measures proposed to address the effects of the Project on the

red-cockaded woodpecker and Florida panther. These measures are outlined in the **SUPPLEMENTARY INFORMATION** section below.

DATES: Written comments on the ITP application and HCP should be sent to the Southeast Regional Office (see **ADDRESSES**) and should be received on or before December 16, 2008.

ADDRESSES: Persons wishing to review the ITP application, Environmental Assessment (EA), and HCP may obtain a copy by writing the Service's Southeast Regional Office. Please reference permit number TE145823-0 in such requests. Documents will also be available for public inspection by appointment during normal business hours at the Regional Office, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345, or Field Supervisor, South Florida Ecological Services Office, U.S. Fish and Wildlife Service, 1339 20th Street, Vero Beach, Florida 32960-3559.

FOR FURTHER INFORMATION CONTACT: Mr. David Dell, Regional Permit Coordinator (see **ADDRESSES**), telephone: 404/679-7313; or George Dennis, Ecologist, South Florida Ecological Services Office (see **ADDRESSES**), telephone: 772/562-3909 ext. 309.

SUPPLEMENTARY INFORMATION: If you wish to comment, you may submit comments by any one of several methods. Please reference permit application number TE145823-0 in such comments. You may mail comments to the Service's Regional Office (see **ADDRESSES**). You may also comment via the internet to david_dell@fws.gov. Please include your name and return address in your Internet message. If you do not receive a confirmation from the Service that we have received your Internet message, contact us directly at either telephone number listed above (see **FOR FURTHER INFORMATION CONTACT**). Finally, you may hand deliver comments to either Service office listed above (see **ADDRESSES**). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the administrative record. We will honor such requests to the extent allowable by law. There may also be other circumstances in which we would withhold from the administrative record a respondent's identity, as allowable by law. If you wish us to withhold your name and address, you must state this prominently at the beginning of your comments. We will not, however, consider anonymous comments. We

will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

The red-cockaded woodpecker is the only North American woodpecker that excavates its roost and nest cavities in living trees. It is nonmigratory, territorial, and lives in cooperative breeding social units, usually comprising two to six birds, called groups. Nest and roost cavities are almost always excavated in old-age living pines. In south Florida, hydric slash pine flatwoods provide the preferred nesting and foraging habitat for red-cockaded woodpeckers. The most recent surveys estimate the rangewide population of the red-cockaded woodpecker at 4,919 active groups. The estimated breeding population of the red-cockaded woodpecker in Florida is 1,500 groups, with about 75 percent occurring in the Florida Panhandle.

The Florida panther is the last subspecies of *Puma* still surviving in the eastern United States. Historically occurring throughout the southeastern United States, today the Florida panther is restricted to less than 5 percent of its historical range in one breeding population of approximately 100 animals, located in south Florida. Florida panthers are wide ranging, secretive, and occur at low densities. They require large contiguous areas to meet their social, reproductive, and energetic needs.

Limiting factors for the Florida panther are habitat availability, prey availability, and lack of human tolerance. Habitat loss, degradation, and fragmentation are among the greatest threats to Florida panther survival, while lack of human tolerance is one of the greatest threats to Florida panther recovery.

The Project proposes construction of a mixed-use, nonresidential, commercial/industrial office park complex that will substantially modify 240 acres comprising primarily pine flatwoods, and will result in take in the form of harm to red-cockaded woodpecker and harassment of the Florida panther, incidental to the carrying out of these otherwise lawful activities. Habitat alteration associated with the proposed development activities will reduce the availability of nesting, foraging, and sheltering habitat for one group of red-cockaded woodpecker. In addition, the loss of this habitat may result in take in the form of harassment of Florida panthers. The Applicants propose to mitigate take of
