DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

October 22, 2008.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Select Agent Registration.

OMB Control Number: 0579-0213.

Summary of Collection: The Public Health Security and Bioterrorism Preparedness and Response Act of 2002 were signed into law June 12, 2002. This law is designed to prevent, prepare for and respond to bioterrorism and other public health emergencies. The law requires individuals possessing agents or toxins deemed a severe threat to animal or plant health, or to animal or plant products, to be registered with the Secretary of Agriculture unless they have been specifically exempted. The registration process entail the use of a number of separate forms designed to obtain critical information concerning individuals or facilities in possession of certain agents or toxins, as well as the specific characteristics of the agents or toxins—including name, strain, and genetic information.

Need and Use of the Information: The Animal and Plant Health Inspection Service (APHIS) will collect information to determine the biosafety level of an entity as well as the entity's biosecurity situation. The collected information will also be used to ensure that appropriate safeguard, containment, and disposal requirements commensurate with the risk of the agent or toxin are present at the entity, thus preventing access to such agents and toxins for use in domestic or international terrorism. If the information were not collected, APHIS efforts to more aggressively prevent a bioterrorism event in the United States would be compromised.

Description of Respondents: Business or other for profit; State, Local and Tribal Government; Not-for-profit institutions.

Number of Respondents: 655.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 1,268.

Ruth Brown,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Field Crop Production.

OMB Control Number: 0535-0002.

Expiration Date of Approval: March 31, 2009.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Field Crop Production Program consists of probability field crop surveys and supplemental panel surveys. The panel surveys capture unique crop characteristics such as the concentration of crops in localized geographical areas. These surveys are extremely valuable for commodities where acreage and yield are published at the county level. The Field Crop Production Program was last approved by the Office of Management and Budget in September of 2008 for a 6-month emergency approval period. The 2008 Farm Bill (Pub. L. 110-2465) required changes be made to the previous docket which had an expiration date of December 31, 2009. The current expiration date is March 31, 2009. NASS intends to request that the survey be approved for another 3 years.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

Estimate of Burden: Public reporting burden for this information collection is based on 14 individual surveys with expected responses of 5-80 minutes and frequency of 1-40 times per year. Estimated number of responses per respondent is 1.31.
