

applicant's financial accounts as well as the audit period or fiscal year that the applicant operates under (e.g., July 1 through June 30); a program narrative in response to the statement of work and a budget narrative explaining projected costs. The following forms must also be included: OMB Standard Form 424, Application for Federal Assistance; OMB Standard Form 424A, Budget Information—Non-Construction Programs; OMB Standard Form 424B, Assurances—Non-Construction Programs (these forms are available at <http://www.grants.gov>) and DOJ/NIC Certification Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and the Drug-Free Workplace Requirements (available at <http://www.nicic.gov/Downloads/PDF/certif-fm.pdf>).

Applications may be submitted in hard copy, or electronically via <http://www.grants.gov>. If submitted in hard copy, there needs to be an original and six copies of the full proposal (program and budget narratives, application forms and assurances). The original should have the applicant's signature in blue ink.

Authority: Public Law 93–415.

Funds Available: NIC is seeking the applicants' best ideas regarding accomplishment of the scope of work and the related costs for achieving the goals of this solicitation. The final budget and award amount will be negotiated between NIC and the successful applicant. Funds may only be used for the activities that are linked to the desired outcome of the project.

This project will be a collaborative venture with the NIC Academy Division.

Eligibility of Applicants: An eligible applicant is any public or private agency, educational institution, organization, individual or team with expertise in the described areas.

Review Considerations: Applications received under this announcement will be subjected to an NIC three to five member review panel.

Note: NIC will NOT award a cooperative agreement to an applicant who does not have a Dun and Bradstreet Database Universal Number (DUNS) and is not registered in the Central Contractor Registry (CCR).

A DUNS number can be received at no cost by calling the dedicated toll-free DUNS number request line at 1–800–333–0505 (if you are a sole proprietor, you would dial 1–866–705–5711 and select option 1).

Registration in the CRR can be done online at the CRR Web site: <http://www.crr.gov>. A CRR Handbook and worksheet can also be reviewed at the Web site.

Number of Awards: One (1).

NIC Application Number: 09A54.

This number should appear as a reference line in your cover letter, in box 4a of Standard Form 424, and outside of the envelope in which the application is sent.

Catalog of Federal Domestic Assistance Number: 16.601.

Executive Order 12372: This program is not subject to the provisions of Executive Order 12372.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The information collection requirements specified in the Asbestos in Shipyards Standard protect employees from the adverse health effects that may result from occupational exposure to asbestos. The major information collection requirements in the Standard include:

- Implementing an exposure monitoring program that informs employees of their exposure-monitoring results;

- At multi-employer worksites, notification of other on-site employers by employers establishing regulated areas for the type of work performed with asbestos-containing materials (ACMs) and/or presumed asbestos-containing materials (PACMs), the requirements that pertain to regulated areas and the measures the employers can use to protect their employees from asbestos overexposure;

- Developing specific information and training programs for employees;
- Providing medical surveillance for employees potentially exposed to ACMs and/or PACMs, including administering an employee medical questionnaire, providing information to the examining physician, and providing the physician's written opinion to the employee; and

- Maintaining records of objective data used for exposure determinations, employee exposure monitoring and medical surveillance records, training records, the record (i.e., information, data, and analyses) used to demonstrate that PACM does not contain asbestos, and notifications made and received by building/facility owners regarding the content of ACMs and PACMs.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is proposing to extend the information collection requirements contained in the Asbestos in Shipyards Standard (29 CFR 1915.1001). The Agency is requesting an increase in its current burden hour total from 1,426 hours to 1,621 for a total increase of 195 hours. The adjustment is primarily the result of an increase in the number of shipyards that may have employees exposed to asbestos. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Asbestos in Shipyards Standard (29 CFR 1915.1001).

OMB Number: 1218-0195.

Affected Public: Business or other for-profits; Federal Government; State, Local or Tribal Government.

Frequency: On occasion.

Average Time Per Response: Varies from 5 minutes (.08 hour) to provide information to the examining physician to 1.83 hours to develop alternative control methods.

Estimated Total Burden Hours: 1,621.

Estimated Cost (Operation and Maintenance): \$37,798.

IV. Public Participation—Submission of Comments on this Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (FAX); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2008-0048). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled "ADDRESSES"). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office.

Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2008-0416]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** Notice with a 60-day comment period on this information collection on August 1, 2008 (73 FR 45083).

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* NRC Form 396, "Certification of Medical Examination by Facility Licensee".

3. *Current OMB approval number:* 3150-0024.

4. *The form number if applicable:* NRC Form 396.

5. *How often the collection is required:* Upon application for an initial operator license, every six years for the renewal of operator or senior operator license, and upon notice of disability.

6. *Who will be required or asked to report:* Facility licensees who are tasked with certifying the medical fitness of an applicant or licensee.

7. *An estimate of the number of annual responses:* 1,290.

8. *The estimated number of annual respondents:* 137.

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 793 (323 hours for reporting [.25 hours per response], and 470 hours for recordkeeping [3.4 hours per recordkeeper]).

10. *Abstract:* NRC Form 396 is used to transmit information to the NRC regarding the medical condition of applicants for initial operator licenses or renewal of operator licenses and for the maintenance of medical records for all licensed operators. The information is used to determine whether the physical condition and general health of applicants for operator licensees is such that the applicant would not be expected to cause operational errors and endanger public health and safety.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC World Wide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by December 4, 2008. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Nathan J. Frey, Office of Information and Regulatory Affairs (3150-0024), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to Nathan.J.Frey@omb.eop.gov or submitted by telephone at (202) 395-7345.

The NRC Clearance Officer is Gregory Trussell (301) 415-6445.

Dated at Rockville, Maryland, this 23rd day of October 2008.

For the Nuclear Regulatory Commission.

Gregory Trussell,

NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

I. Background

Pursuant to section 189a. (2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. The Act requires the Commission publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from October 9, 2008 to October 22, 2008. The last biweekly notice was published on October 21, 2008 (73 FR 370501).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be
