Correction

In the **Federal Register** of February 13, 2008, in FR Doc. E8-2675; on page 8315, in the second column, correct the "Needs and Uses" to read:

Needs and Uses: On February 1, 2008, the Commission released a Report and Order and Further Notice of Proposed Rulemaking, In the Matter of Leased Commercial Access, MB Docket No. 07-42, FCC 07-208. In this Report and Order, we modify the leased access rules. With respect to leased access, we modify the leased access rate formula; adopt customer service obligations that require minimal standards and equal treatment of leased access programmers with other programmers; eliminate the requirement for an independent accountant to review leased access rates; and require annual reporting of leased access statistics. We also adopt expedited time frames for resolution of complaints and improve the discovery process.

The commercial leased access requirements are set forth in Section 612 of the Communications Act of 1934, as amended. The statute and corresponding leased access rules require a cable operator to set aside channel capacity for commercial use by unaffiliated video programmers. The Commission's rules implementing the statute require that cable operators with 36 or more channels calculate rates for leased access channels, maintain and provide on request information pertaining to leased access channels, and provide billing and collection services as required. The Commission may be required to resolve complaints about rates, terms and conditions of leased access. Changes to the rules increased the quantity of information maintained and provided, increase the information needed to calculate rates and require the filing of an annual report with the Commission on the status of leased access channels.

In addition, the Commission is consolidating information collection OMB Control Number 3060-0569 (Commercial leased access dispute resolution) into this collection OMB Control Number 3060-0568.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.

Ellen Crown, Agency for Healthcare Research and Quality, 301-427-1258 or ellen.crown@ahrq.hhs.gov.

SUPPLEMENTARY INFORMATION: Under the Patient Safety and Quality Improvement Act of 2005 (Patient Safety Act), the Secretary is authorized to list Patient Safety Organizations (PSOs), organizations that will work with providers to collect and analyze patient safety related data. The Statute sets forth and the recently published proposed regulation explains certifications that must be submitted by entities in order to be listed as PSOs. PSOs will provide analysis of data and feedback to providers to assist them in improving patient safety.

The Patient Safety Act protects the confidentiality of data shared by providers prepared by the PSO as well as other related materials, defined in the statute and proposed regulations. This legal protection of information addresses significant barriers that currently exists—the fear of legal liability or sanctions that can result from reporting a patient safety event. Strong confidentiality provisions are key to encouraging voluntary reporting, and facilitating the aggregation of large volumes of data which in turn aids in identifying patterns of patient safety events. Under the Patient Safety Act, the imposition of civil monetary penalties is authorized for breaches of its confidentiality provisions. The confidentiality protections of patient safety information are to be implemented in a way that does not interfere with other health care reporting obligations of providers, e.g., under State or local laws.

Dated: February 13, 2008.
