Proposed Information Collection Activity; Comment Request

Proposed Projects:

Title: Developmental Disabilities Program Independent Evaluation Project.

OMB No.: New collection.

Description: The Developmental Disabilities Program Independent Evaluation (DDPIE) Project is an independent (non-biased) evaluation to examine through rigorous and comprehensive performance-based research procedures the targeted impact on the lives of people with developmental disabilities and their families of three programs funded under the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (DD Act): (1) State Councils on Developmental Disabilities (SCDDs); (2) State Protection and Advocacy Systems for Individuals with developmental disabilities (P & As); and (3) University Centers for Excellence in Developmental Disabilities (UCEDDs). The intent of this evaluation is to understand and report on the accomplishments of these programs, including collaborative efforts among the DD Network programs. The results of this evaluation will provide a report to the Administration on Developmental Disabilities (ADD) (the agency that administers these programs) with information on the effectiveness of its programs and policies and serve as a way for ADD to promote accountability to the public.

The independent evaluation is a response to accountability requirements for ADD as identified in the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (DD Act), the Government Performance and Results Act (GPRA) of 1993, and the Program Assessment Rating Tool (PART), administered by the Office of Management and Budget (OMB). This project meets the requirements of PART by providing a non-biased method of evaluating the effectiveness and impact of DD Network programs on the lives of people with developmental disabilities and their families.

ADD is seeking OMB approval for the evaluation tools (e.g., data collection instruments). The evaluation tools are designed to collect data for two purposes: (1) To measure the programs according to indicators (structural, process, output, and outcome) in key function areas; and (2) to establish performance standards for measuring the impact of each of the programs. The evaluation tools are primarily protocols for conducting interviews with various staff of the three programs and stakeholders associated with the programs. The interview protocols were tested during a pilot study in 2008. There is also a self-administered form for each of the programs to be completed by Executive Directors or his/her designee. The self-administered form was developed as a result of the pilot study and, therefore, has not been tested for reliability and validity. It is intended that the clearance process will be a mechanism for determining the reliability, validity, and feasibility of using this instrument.
