3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have a typical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What Action Is the Agency Taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the establishment or modification of regulations in 40 CFR part 174 or part 180 for residues of pesticide chemicals in or on various food commodities. EPA has determined that the pesticide petitions described in this notice contain the data or information prescribed in FFDCA section 408(d)(2); however, EPA has not

fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that is the subject of this notice, prepared by the petitioner, is included in a docket EPA has created for each rulemaking. The docket for each of the petitions is available on-line at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), (21 U.S.C. 346a(d)(3)), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

New Tolerance Exemptions

1. *PP 8F7391.* (EPA-HQ-OPP-2009-0127). Valent BioSciences Corporation, 870 Technology Way, Libertyville, IL 60048, proposes to establish an exemption from the requirement of a tolerance for residues of the biochemical plant regulator, *S*-Absciscic Acid; (S)-5-(1-hydroxy-2,6,6-trimethyl-4-oxo-1-cyclohex-2-enyl)-3-methyl-penta-(2Z,4E)-dienoic acid, in or on all food commodities. The petitioner believes no analytical method is needed because application will not result in detectable residues or residues of toxicological concern.

2. *PP 9F7551.* (EPA-HQ-OPP-2009-0237). AgraQuest, Inc., 1540 Drew Avenue, Davis, California, 95618, proposes to establish an exemption from the requirement of a tolerance for residues of the biochemical insecticide and acaricide, Extract of *Chenopodium ambrosioides* near *ambrosioides* Mimic (A blend of compounds simulating the already registered active ingredient Extract of *Chenopodium ambrosioides* near *ambrosioides*), in or on all food commodities. The petitioner believes no analytical method is needed because an analytical method for residues is not applicable. It is expected that Extract of *Chenopodium ambrosioides* near *ambrosioides* Mimic would not result in detectable residues or residues that are of toxicological concern.
