

information that may be necessary to price the Shares appropriately and to prevent trading when a reasonable degree of transparency cannot be assured. Nasdaq Rule 4420(j)(1)(B)(iv) requires daily public Web site disclosure of its portfolio holdings including, as applicable, the identity and number of shares held of each specific equity security, the identity and amount held of each fixed income security, the specific types of Financial Instruments and characteristics of such instruments, and cash equivalents and the amount of cash held in the portfolio of a fund. With respect to such Financial Instruments, the Commission notes that a notification procedure will be implemented by the Exchange so that timely notice from the investment adviser of such Multiple or Inverse Fund is received by the Exchange when a particular Financial Instrument is in default or shortly to be in default. The Commission also notes that the Exchange would be required to halt trading if Nasdaq becomes aware that the NAV or the identities and quantities of the portfolio of securities and other assets with respect to a Fund Share is not disseminated to all market participants at the same time.

In addition, the Commission notes that the Exchange's suitability requirements would apply to the trading of Multiple Fund Shares and Inverse Fund Shares. Specifically, prior to commencement of trading, the Exchange will issue an Information Circular to its members and member organizations providing guidance with regard to member firm compliance responsibilities (including suitability obligations) when effecting transactions in the Fund Shares and highlighting the special risks and characteristics of Funds Shares as well as applicable Exchange rules.

In sum, the Commission believes that the Exchange's proposed amendments to Nasdaq Rule 4420(j) relating to the listing and trading of Multiple Fund Shares and Inverse Fund Shares should fulfill the intended objective of Rule 19b-4(e) under the Act by allowing such derivative securities products to be listed and traded without separate Commission approval. The Commission believes that the proposed rule change should facilitate the listing and trading of additional types of exchange-traded products and reduce the time frame for bringing these securities to market, thereby reducing the burdens on issuers and other market participants and promoting competition.

The Commission finds good cause, pursuant to Section 19(b)(2) of the

Act,<sup>13</sup> for approving the proposed rule change prior to the 30th day after the date of publication of notice in the **Federal Register**. The Commission notes that it has previously approved a substantially similar proposed rule change of another self-regulatory organization.<sup>14</sup> No comments were received on the proposed rule change during the 15-day comment period, and the Commission believes that the Exchange's proposal does not present any novel regulatory issues.

As such, the Commission believes that accelerating approval of this proposal should benefit investors by creating, without undue delay, additional competition in the market for such products.

#### IV. Conclusion

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act,<sup>15</sup> that the proposed rule change (SR-NASDAQ-2008-096) be, and hereby is, approved on an accelerated basis.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>16</sup>

**Florence E. Harmon,**  
*Deputy Secretary.*
