BILLING CODE 4510-FN-C

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA)

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency has submitted to OMB for approval the information collection described in this notice. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted to OMB at the address below on or before June 12, 2009 to be assured of consideration.

ADDRESSES: Send comments to Mr. Nicholas A. Fraser, Desk Officer for NARA, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5167; or electronically mailed to Nicholas_A_Fraser@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-713-7409.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on March 4, 2009 (74 FR 9307). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this

collection. In this notice, NARA is soliciting comments concerning the following information collection:
Title: Financial Disclosure Report.
OMB Number: 3095-0058.
Agency Form Number: Standard Form 714.

Type of Review: Regular.
Affected Public: Business or other for-profit, Federal government.
Estimated Number of Respondents: 25,897.

Estimated Time per Response: 2 hours.

Frequency of Response: On occasion.
Estimated Total Annual Burden Hours: 51,794 hours.

Abstract: Executive Order 12958, as amended, "Classified National Security Information" authorizes the Information Security Oversight Office to develop standard forms that promote the implementation of the Government's security classification program. These forms promote consistency and uniformity in the protection of classified information.

The Financial Disclosure Report contains information that is used to assist in making eligibility determinations for access to specifically designated classified information pursuant to Executive Order 12968, "Access to Classified Information," by appropriately trained adjudicative personnel. The data may later be used as part of a review process to evaluate continued eligibility for access to such specifically designated classified information or as evidence in legal proceedings.

The Financial Disclosure Report helps law enforcement entities obtain pertinent information in the preliminary stages of potential espionage and counterterrorism cases.

Dated: May 7, 2009.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency has submitted to OMB for approval the information collections described in this notice. The public is invited to comment on the proposed

information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted to OMB at the address below on or before June 12, 2009 to be assured of consideration.

ADDRESSES: Send comments to Mr. Nicholas A. Fraser, Desk Officer for NARA, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5167; or electronically mailed to Nicholas_A_Fraser@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-713-7409.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on March 3, 2009 (74 FR 9307 and 9308). No comments were received. NARA has submitted the described information collections to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collections are necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collections; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by these collections. In this notice, NARA is soliciting comments concerning the following information collections:

1. *Title:* National Personnel Records Center (NPRC) Survey of Customer Satisfaction.

OMB number: 3095-0042.

Agency form number: N/A.

Type of review: Regular.

Affected public: Federal, State and local government agencies, veterans, and individuals who write the Military Personnel Records (MPR) facility for information from or copies of official military personnel files.

Estimated number of respondents: 1,000.

Estimated time per response: 10 minutes.

Frequency of response: On occasion (when respondent writes to MPR requesting information from official military personnel files).

Estimated total annual burden hours: 167 hours.

Abstract: The information collection is prescribed by EO 12862 issued September 11, 1993, which requires Federal agencies to survey their customers concerning customer service. The general purpose of this data collection is to provide MPR management with an ongoing mechanism for monitoring customer satisfaction. In particular, the purpose of the National Personnel Records Center (NPRC) Survey of Customer Satisfaction is to (1) determine customer satisfaction with MPR's reference service process, (2) identify areas within the reference service process for improvement, and (3) provide MPR management with customer feedback on the effectiveness of BPR initiatives designed to improve customer service as they are implemented. In addition to supporting the BPR effort, the National Personnel Records Center (NPRC) Survey of Customer Satisfaction helps NARA in responding to performance planning and reporting requirements contained in the Government Performance and Results Act (GPRA).

2. *Title:* Presidential Libraries Museum Visitor Survey.

OMB number: 3095-0066.

Agency form number: N/A.

Type of review: Regular.

Affected public: Individuals who visit the museums at the Presidential libraries.

Estimated number of respondents: 75,000.

Estimated time per response: 15 minutes.

Frequency of response: On occasion (when an individual visits a Presidential Library).

Estimated total annual burden hours: 18,750 hours.

Abstract: The survey is comprised of a set of questions designed to allow for a statistical analysis that will ultimately provide actionable information to NARA. The survey includes questions that measure the visitor's satisfaction in general and with specific aspects of their visit. These questions serve as dependent variables for analytical purposes. Other questions provide attitudinal, behavioral, and demographic data that are used to help understand variation in the satisfaction variables. Using statistical analyses, Harris Interactive will determine the factors that drive the visitor's perceptions of quality and satisfaction with the Library they visited.

Additionally, natural groupings of visitors defined by similarity based on these attitudinal, behavioral, and demographic variables can be developed and targeted for outreach purposes. The information collected through this effort will inform program activity, operation, and oversight, and will benefit Library and NARA staff and management in making critical decisions about resources allocation, museum operation and program direction.

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0138]

Proposed Generic Communication; Pre-Licensing Construction Activities at Proposed, Unlicensed Uranium Recovery Facilities

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed generic communication: Reopening of public comment period.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is reopening the comment period specific to the information collection aspects of a proposed regulatory issue summary (RIS) published on March 27, 2009 (74 FR 13483), which presents the NRC's interpretation of the regulations governing the commencement of construction found in 10 CFR 40.32(e). The comment period for this proposed RIS closed on April 27, 2009.

DATES: Comment period expires May 15, 2009. Comments submitted after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except for comments received on or before this date.

ADDRESSES: Submit written comments to the Chief, Uranium Recovery Licensing Branch, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Mail Stop T-8F5, Washington, DC 20555-0001, and cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to NRC Headquarters, 11545 Rockville Pike (Room T-8F5), Rockville, Maryland, between 7:30 a.m. and 4:15 p.m. on Federal workdays.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen J. Cohen at 301-415-7182 or by e-mail at stephen.cohen@nrc.gov.

ADDRESSES: All holders of operating licenses for uranium recovery facilities and all companies that have submitted applications to construct new uranium recovery facilities of all types (conventional mills, heap leach, and in situ recovery (ISR) facilities) or letters of intent to submit such applications.

Intent

The U.S. Nuclear Regulatory Commission (NRC) is issuing this regulatory issue summary (RIS) to inform addressees of the NRC's policy regarding the permissible construction activities at proposed, unlicensed uranium recovery facilities. The NRC is issuing this RIS in response to industry inquiries regarding the activities that applicants may undertake prior to receiving a license.

SUPPLEMENTARY INFORMATION: In relation to the applications for new uranium recovery facilities currently under review and those applications expected over the next several years, the NRC has been queried by the uranium recovery industry about those construction activities that would be permissible at proposed uranium recovery facilities before a license is granted. The industry has requested information on permissible construction activities, including the potential use of limited work authorizations (LWAs) as provided in the reactor program, in the interest of minimizing the lead time from receipt of a license to the initiation of uranium recovery operations.

The NRC's regulations in 10 CFR 40.32(e) prohibits the commencement of construction of a uranium recovery facility until a license is issued. Moreover, commencement of construction prior to the issuance of a license would be grounds for denial of a license. "Commencement of construction" includes any clearing of land, excavation, or other substantial action that would adversely affect the environment of a site. However, the rule does permit site exploration, construction of roads necessary for site exploration, borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the suitability of the site or the protection of environmental values. These activities may be conducted before a license is granted.

According to industry, ISR applicants, therefore, should be allowed to build out most of the facilities without a license, utilizing a tiered system of
