SUPPLEMENTARY INFORMATION:

Title: NPS/Minerals Management Program/Mining Claims and Non-Federal Oil and Gas Rights—36 CFR Part 9, Subpart A and Subpart B, respectively.

Form(s): None

OMB Control Number: 1024-0064.

Expiration Date: 02/28/2010

Type of Request: Extension of a currently approved collection of information

Description of Need: The NPS regulates mineral development activities inside park boundaries on mining claims and on non-Federal oil and gas rights under regulations codified at 36 CFR Part 9, Subpart A (“9A regulations”), and 36 CFR Part 9, Subpart B (“9B Regulations”), respectively. The NPS promulgated both sets of regulations in the late 1970s. In the case of mining claims, the NPS promulgated the 9A regulations pursuant to congressional authority granted under the Mining in the Parks Act of 1976, 16 U.S.C. 1901 *et seq.*, and individual park enabling statutes. For non-Federal oil and gas rights, the NPS regulates development activities pursuant to authority under the NPS Organic Act of 1916, 16 U.S.C. 1 *et seq.*, and individual enabling statutes. As directed by Congress, the NPS developed the regulations in order to protect park resources and visitor values

from the adverse impacts associated with mineral development in park boundaries. The regulations require operators to submit specific technical information describing their future development plans including steps to mitigate the impacts of operations. NPS uses the information to evaluate proposed operations, ensure that all necessary mitigation measures are employed to protect park resources and values, and ensure compliance with all applicable laws and regulations.

Description of respondents: One-fourth medium to large publicly owned companies and three-fourth private entities.

Estimated average number of respondents: 24 per year.

Estimated average number of responses: 24 per year.

Frequency of Response: 1 per respondent.

Estimated average time burden per respondent: 176 hours.

Estimated total annual reporting burden: 4,224 hours.

Comments are invited on: (1) The practical utility of the information being gathered; (2) the accuracy of the burden hour estimate; (3) ways to enhance the quality, utility, and clarity of the information being collected; and (4) ways to minimize the burden to respondents, including use of automated information collection techniques or other forms of information technology. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Fish and Wildlife Service

[FWS-R3-R-2009-N0023; 30136-1265-0000-S3]

Seney National Wildlife Refuge, Schoolcraft County, MI

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability: Final Comprehensive Conservation Plan and Finding of No Significant Impact for Environmental Assessment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the Final Comprehensive Conservation Plan (CCP) and Finding of No Significant Impact (FONSI) for the Environmental Assessment (EA) for Seney National Wildlife Refuge (NWR). Goals and objectives in the CCP describe how the agency intends to manage the refuge over the next 15 years.

ADDRESSES: Copies of the Final CCP and FONSI/EA may be viewed at the Seney National Wildlife Refuge Headquarters or at public libraries near the refuge. You may access and download a copy via the Planning Web site at <http://www.fws.gov/midwest/Planning/Seney>, or you may obtain a copy on compact disk by contacting: U.S. Fish and Wildlife Service, Division of Conservation Planning, Bishop Henry Whipple Federal Building, 1 Federal Drive, Fort Snelling, MN 55111 (1-800-247-1247, extension 5429), or Seney National Wildlife Refuge, 1674 Refuge Entrance Road, Seney, MI 49883 (906-586-9851). A limited number of hardcopies will be available for distribution at the Refuge Headquarters. **FOR FURTHER INFORMATION CONTACT:** Greg McClellan (906-586-9851).

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we complete the CCP process for Seney NWR, which we began by publishing a notice of intent on April 21, 2006 (71 FR 20722). For more information about the initial process, see that notice. We released the

draft CCP and EA to the public, announcing and requesting comments in a notice of availability on September 3, 2008 (73 FR 51506).

Seney NWR was established in 1935 by Executive Order under the Migratory Bird Conservation Act for the protection and production of migratory birds and other wildlife. The Refuge encompasses approximately 95,238 acres; 25,150 acres comprise the Seney Wilderness Area in which is contained the Strangmoor Bog National Natural Landmark. The Refuge is also responsible for the 33-acre Whitefish Point Unit, a former Coast Guard Station at Whitefish Point, in Chippewa County.

The Draft CCP/EA was released for public review September 3, 2008; the comment period lasted 35 days ending October 8, 2008. During the comment period the Refuge hosted an open house event. By the conclusion of the comment period we received 14 written responses from organizations and individuals. In response to these comments we made a number of minor edits to the final document.

Selected Alternative

After considering the comments received, we have selected Alternative 2 (Management Gradients) for implementation. Under the selected alternative the Refuge will strive to manage its forests and water to allow unfettered succession to take place. Dynamic events such as windstorms, insect and tree disease outbreaks, and flooding and wildfire will play a more substantial role in shaping habitats.

The major focus of the Refuge for the next 15 years will be on increasing biodiversity and regional resource conservation priority species habitat. The Refuge will be segmented into four general units with a management strategy tied to each unit. The units would follow a general gradient of management from low intensity (wilderness) to higher manipulation (managed impoundments and visitor use). The Refuge will also seek to increase wildlife-dependent public use opportunities.

Background

The National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd-668ee *et seq.*), requires the Service to develop a CCP for each National Wildlife Refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System,

consistent with sound principles of fish and wildlife management, conservation, legal mandates, and Service policies. In addition to outlining broad management direction for conserving wildlife and their habitats, the CCP identifies wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation.

We will review and update the CCP at least every 15 years in accordance with the National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997, and the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4370d).

Dated: March 12, 2009.

Charles M. Wooley,

Acting Regional Director, U.S. Fish and Wildlife Service, Fort Snelling, Minnesota.

Notice of Inventory Completion: Field Museum of Natural History, Chicago, IL

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of the Field Museum of Natural History, Chicago, IL. The human remains were removed from Aliulik Peninsula, Kodiak Island, AK.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by Field Museum of Natural History professional staff in consultation with professional staff of the Alutiiq Museum and Archaeological Repository, Kodiak, AK, on behalf of Akhiok-Kaguyak, Inc.; Kaguyak Village; Koniag, Inc.; and Native Village of Akhiok.

In 1950, human remains representing a minimum of one individual were
