Approval and Promulgation of Air Quality Implementation Plans: South Carolina; Approval of Section 110(a)(1) Maintenance Plan for the 1997 8-Hour Ozone Standard for Cherokee County

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the South Carolina State Implementation Plan (SIP) concerning the maintenance plan addressing the

1997 8-hour ozone standard for Cherokee County, South Carolina. This maintenance plan was submitted for EPA action on December 13, 2007, by the State of South Carolina, and ensures the continued attainment of the 1997 8-hour ozone national ambient air quality standard through the year 2014. EPA is proposing to approve the SIP revision pursuant to section 110 of the Clean Air Act. The maintenance plan meets all the statutory and regulatory requirements, and is consistent with EPA's guidance. On March 12, 2008, EPA issued a revised ozone standard. Today's action, however, is being taken to address requirements under the 1997 8-hour ozone standard. Requirements for the Cherokee County Area under the 2008 8-hour ozone standard will be addressed in the future.

In the Final Rules Section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
