SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Development of Nutrition Education Messages and Products for the General Public.

OMB Number: 0582–0523.

Expiration Date: January 31, 2010.

Type of Request: Revision of a currently approved information collection.

Abstract: The *Dietary Guidelines for Americans*, issued jointly by the U.S. Departments of Agriculture and Health and Human Services, are the cornerstone of Federal nutrition policy and form the basis for nutrition

education efforts of these agencies. The U.S. Department of Agriculture's CNPP develops and promotes nutrition education materials to help consumers understand and use the *Dietary Guidelines for Americans* as well as MyPyramid, the tool designed to help consumers implement the *Dietary Guidelines*. Additional materials (hard copy and electronic) are used to help consumers understand and use the *Dietary Guidelines*, many of which may be geared toward various special population groups. Publications and web materials that have become obsolete since the release of the 2010 *Dietary Guidelines for Americans* and MyPyramid will also need to be updated and replaced. With the increased prevalence of overweight and obesity in the United States, it has become increasingly important to communicate clear and useful nutrition education information related to the *Dietary Guidelines* on food choices, weight, and physical activity. The USDA has had the lead administrative responsibility for the 2010 *Dietary Guidelines* revision process from which new messages and materials will be developed, including a new consumer bulletin.

Educational messages and products in support of the *Dietary Guidelines for Americans* and MyPyramid will be developed by the Center for Nutrition Policy and Promotion. They may include:

1. Messages and products related to the 2010 *Dietary Guidelines for Americans* that help consumers make healthier food and physical activity choices;

2. Enhancement of the MyPyramid Web site to include additional components such as updated nutrition and physical activity personalized tracking and other interactive tools as well as consumer and professional support materials;

3. Materials relaying the 2010 *Dietary Guidelines for Americans* and MyPyramid for special population groups that might be identified; and

4. New policy, messages, materials, and tools that might be developed as a result of the 2010 *Dietary Guidelines for Americans* revision process.

The products for these initiatives will be tested using qualitative consumer research techniques, which may include focus groups (with general consumers, educators, students, etc.), interviews

(i.e., intercept, individual, diads, triads, usability testing, etc.) and Web-based surveys. Participants being tested will provide information regarding the clarity, understandability, and acceptability of the messages and

products during the developmental process and during the final product development stage.
