National Highway Traffic Safety Administration

[Docket No. NHTSA-2009-0101]

Notice of Receipt of Petition for Decision That Nonconforming 2006 Porsche Cayenne Multipurpose Passenger Vehicles Manufactured Prior to September 1, 2006 Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for decision that nonconforming 2006 Porsche Cayenne multipurpose passenger vehicles manufactured prior to September 1, 2006 are eligible for importation.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that 2006 Porsche Cayenne multipurpose passenger vehicles (MPVs) manufactured prior to September 1, 2006 that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards (FMVSS) are eligible

for importation into the United States because: (1) They are substantially similar to vehicles that were originally manufactured for sale in the United States and that were certified by their manufacturer as complying with the safety standards (the U.S.-certified 2006 Porsche Cayenne MPV manufactured prior to September 1, 2006), and (2) they are capable of being readily altered to conform to the standards.

DATES: The closing date for comments on the petition is July 6, 2009.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Wallace Environmental Testing Laboratories, Inc. of Houston, Texas (WETL) (Registered Importer 90-005) has petitioned NHTSA to decide whether nonconforming 2006 Porsche Cayenne MPVs manufactured prior to September 1, 2006, are eligible for importation into the United States. The vehicles which WETL believes are substantially similar are 2006 Porsche Cayenne MPVs manufactured prior to September 1, 2006, that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it carefully compared non-U.S. certified 2006 Porsche Cayenne MPVs manufactured prior to September 1, 2006, to their U.S.-certified counterparts, and found the vehicles to be substantially similar with

respect to compliance with most FMVSS.

WETL submitted information with its petition intended to demonstrate that non-U.S. certified 2006 Porsche Cayenne MPVs manufactured prior to September 1, 2006, as originally manufactured, conform to many FMVSS in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 2006 Porsche Cayenne MPVs manufactured prior to September 1, 2006, are identical to their U.S.-certified counterparts with respect to compliance with Standard Nos. 102 *Transmission Shift Lever Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 106 *Brake Hoses*, 113 *Hood Latch System*, 116 *Motor Vehicle Brake Fluids*, 118 *Power-Operated Window, Partition, and Roof Panel Systems*, 119 *New Pneumatic Tires for Vehicles Other than Passenger Cars*, 120 *Tire Selection and Rims for Motor Vehicles Other than Passenger Cars*, 124 *Accelerator Control Systems*, 135 *Light Vehicle Brake Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 225 *Child Restraint Anchorage Systems*, and 302 *Flammability of Interior Materials*.

Petitioner also contends that the vehicle is capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays*: Inscription of the word "brake" on the instrument cluster in place of the international ECE warning symbol and installation of a U.S.-model speedometer, or modification of the existing speedometer to conform with the requirements of this standard.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: Installation of U.S.-model headlamps and tail lamps to meet the requirements of this standard.

Standard No. 111 *Rearview Mirrors*: Installation of a U.S.-model passenger side rearview mirror, or inscription of the required warning statement on the face of that mirror on all vehicles not already so equipped.

Standard No. 114 *Theft Protection*: Installation of a supplemental key warning buzzer, or installation of U.S.-version software on all vehicles not already so equipped.

Standard No. 208 *Occupant Crash Protection*: Installation of a seat belt warning system that meets the requirements of this standard.

The petitioner states that the crash protection system used in these vehicles consists of dual front airbags, knee bolsters, and combination lap and shoulder belts at the front outboard seating positions.

Standard No. 301 *Fuel System Integrity*: Inspection of all vehicles and replacement of any non-U.S.-model fuel system components with U.S.-model components.

The petitioner additionally states that a vehicle identification plate must be affixed to the vehicles near the left windshield post to meet the requirements of 49 CFR Part 565.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.
