IRIS is a database that contains potential adverse human health effects information that may result from chronic (or lifetime) exposure to specific chemical substances found in the environment. The database (available on the Internet at <http://www.epa.gov/iris>) contains qualitative and quantitative health effects information for more than 540 chemical substances that may be used to support the first two steps (hazard identification and dose-

response evaluation) of a risk assessment process. When supported by available data, the database provided oral reference doses (RfDs) and inhalation reference concentrations (RfCs) for chronic health effects, and oral slope factors and inhalation unit risks for carcinogenic effects. Combined with specific exposure information, government and private entities can use IRIS data to help characterize public health risks of chemical substances in a site-specific situation and thereby support risk management decisions designed to protect public health.

FOR FURTHER INFORMATION CONTACT:

Wireless Telecommunications Bureau, Auctions and Spectrum Access Division, Scott Mackoul at 202-418-7498. All press inquiries should be directed to Matthew Nodine at 202-418-1646.

SUPPLEMENTARY INFORMATION:

1. The Commission has adopted unjust enrichment rules, which require a designated entity (DE) that has benefited from bidding credits to return some or all of those benefits if it transfers its license to a non-DE or otherwise loses its eligibility for such benefits. In 2006, the Commission revised its unjust enrichment rules, extending from five years to ten years the period during which a DE will have to repay some or all of its bidding credits if it loses eligibility for those benefits. Section 1.2111(d)(2)(i) of the Commission's rules, 47 CFR 1.2111(d)(2)(i), provides a prorated schedule for licensees that lose their eligibility for a bidding credit and were initially granted their licenses after April 25, 2006, to repay that bidding credit.

2. Denali asks that the Commission forbear from applying 47 CFR 1.2111(d)(2)(i) to it in light of the prevailing economic conditions, Denali's need for additional capital to fund network deployment, and the opportunity for Denali to create jobs and extend its state-of-the-art network to under-served low income and other segments of the population. Denali asserts that forbearance from applying the unjust enrichment provisions would be consistent with recent Federal initiatives intended to stimulate the

national economy and promote investment. Denali also states that as a condition on the grant of its forbearance request, it will adhere to the less stringent unjust enrichment provisions that apply to licenses granted prior to April 25, 2006.

3. The Wireless Telecommunications Bureau seeks comment on Denali's Petition. Interested parties may file comments on or before June 18, 2009, and reply comments on or before July 6, 2009.

4. Denali's Petition will be available online through ECFS, in the Commission's Public Reference Center, and from the Commission's duplicating contractor, Best Copy and Printing, Inc. (BCPI), 445 12th Street, SW., Room CY-B402, Washington, DC 20554, by telephone at 800-378-3160 or 202-488-5300, fax at 202-488-5563, or e-mail at fcc@bcpiweb.com.

5. This matter shall be treated as a permit-but-disclose proceeding in accordance with the Commission's *ex parte* rules.

Federal Communications Commission.

Deputy Chief, Auctions and Spectrum Access Division, WTB.
