Permethrin; Second Revision to Reregistration Eligibility Decision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's decision to modify the 2006 Reregistration Eligibility Decision (RED) for the pesticide permethrin based on the revised occupational and residential (ORE) risk assessment. II. Background

A. What Action is the Agency Taking?

Section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) directs EPA to reevaluate existing pesticides to ensure that they meet current scientific and regulatory standards. In April 2006, EPA issued a reregistration eligibility decision (RED) for permethrin under section 4(g)(2)(A) of FIFRA. The 2006 permethrin RED was first revised in December 2007 based on public comments and post-RED activities. However, the Agency has completed this most recent RED revision following receipt of a new study, Estimated Dermal Penetration in Humans Based on *In Vitro* and *In Vivo* Data, submitted by the Consumer Specialty Products Association, Permethrin Dermal Absorption Group. The amended permethrin RED reflects changes resulting from Agency consideration of the new data, as well as efforts by the Agency to appropriately mitigate overall risk.

The new data served to revise the dermal absorption factor relied upon in the cancer portion of the occupational and residential exposure (ORE) risk assessment from 15% to 5.7%. The revised RED captures the recent ORE cancer risk assessment, and also modifies the required risk mitigation appropriately. The Agency has also revised the RED document to reflect the current status of Office of Pesticide Program initiatives, such as the

cumulative risk assessment and the Endangered Species Program. Further, in addition to the revised risk mitigation, which is captured in the Summary of Labeling Changes for Permethrin (label table), the Agency has incorporated a number of revisions to the label table to reflect updates in labeling on permethrin residential, agricultural, and wide area public health use products.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA, as amended, directs that, after submission of all data concerning a pesticide active ingredient, “the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration,” before calling in product specific data on individual end-use products and either reregistering products or taking other “appropriate regulatory action.”
