SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) is extending the comment period for two documents: the proposed Supplement 4 (Supplement 4) to "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants," NUREG-0654/FEMA-REP-1/Rev. 1 (NUREG-0654), and the proposed Radiological Emergency Preparedness Program Manual (the REPP Manual).

NUREG-0654 is a joint document issued by the Nuclear Regulatory Commission (NRC) and FEMA that contains the Evaluation Criteria against which FEMA and the NRC measure the emergency preparedness plans of Nuclear Power Plant owners and operators and the State, local, and Tribal jurisdictions in which they sit. The REPP Manual provides additional implementation guidance for State, local, and Tribal jurisdictions.

Supplement 4 revises and provides additional offsite requirements for emergency preparedness programs at the Nation's nuclear power plants, as well as requirements for backup means for alert and notification, and coordination between licensees and offsite responders. The REPP Manual consolidates all of the FEMA Radiological Emergency Preparedness Program's many operative guidance and policy documents into one location, and provides additional guidance on the proposed changes in Supplement 4.

FEMA published a notice of availability for these two documents on May 18, 2009, at 74 FR 23198. The original comment period was scheduled to conclude on August 3, 2009. In response to public comments, FEMA and the NRC have jointly determined to extend the comment period until October 19, 2009. Since the May 18 publication of the notice of availability, FEMA has received several comments requesting that the period be extended beyond the original 75 day period. These requests have suggested a range of more appropriate comment periods, lasting from 150 to 180 days. Various organizations cited the voluminous material put forth by the agencies for comment. Because the proposed regulatory amendments and guidance documents cover many significant legal, regulatory and policy matters that may require a time consuming review by

licensees and their offsite counterparts, FEMA and the NRC have determined that it is in the interest of all parties to extend the comment period.

Authorities: FEMA proposes to issue the new REPP Manual, and FEMA and the NRC propose to issue Supplement 4 to NUREG-0654 under the authority of: Reorganization Plan No. 3 of 1978; Presidential Directive of Dec. 7, 1979; Executive Order 12148 "Federal Emergency Management"; section 201 of the Disaster Relief Act of 1974, 42 U.S.C. 5131, as amended by the Robert T. Title of Proposal: 2009 American Housing Survey—New Orleans Metropolitan Sample.

Description of Information Collection: This is a new information collection. The Department of Housing and Urban Development is seeking emergency review of the Paperwork Reduction Act Requirements associated with the 2009 American Housing Survey—New Orleans Metropolitan Sample. This document provides notice that this emergency request is necessary at this time because it is essential to provide a periodic measure of the size and composition of the housing inventory for the select New Orleans metropolitan

area. In addition, the New Orleans sample will provide information about people who rebuilt or rehabilitated their homes as a result of Hurricane Katrina, or are still in the process of renovating their homes; people who were living in New Orleans pre-Katrina, but who have moved to a different address in the New Orleans metro; and property that existed pre-Katrina, but has not been restored or where a person is living in a trailer on a lot. Title 12, United States Code, Sections 1701Z-1, 1701Z-2(g), and 1710Z-10a mandates the collection of this information. The 2009 American Housing Survey New Orleans Metropolitan sample is similar to previous American Housing Surveys (AHS) in that it collects data on subjects such as the amount and types of changes in the inventory, the physical condition of the inventory, the characteristics of the occupants, the persons eligible for and beneficiaries of assisted housing by race and ethnicity, and the number and characteristics of vacancies. Policy analysts, program managers, budget analysts, and Congressional staff use AHS data to advise executive and legislative branches about housing conditions and the suitability of public policy initiatives. Academic researchers and private organizations also use AHS data in efforts of specific interest and concern to their respective communities. The Department of Housing and Urban Development (HUD) needs the AHS data for two important uses.

1. With the data, policy analysts can monitor the interaction among housing needs, demand and supply, as well as changes in housing conditions and costs, to aid in the development of housing policies and the design of housing programs appropriate for different target groups, such as first-time home buyers and the elderly.

2. With the data, HUD can evaluate, monitor, and design HUD programs to improve efficiency and effectiveness.

OMB Control Number: 2528—Pending.
Agency Form Numbers: Computerized Versions of AHS-2161, AHS-22/62 and AHS-23/63.

Members of the Affected Public: Households.

Estimation of the total numbers of hours needed to prepare the information collection including number of responses, frequency of responses, and hours of responses: The number of respondents is 5,400 and the number of responses is 4,644. The estimated total number of burden hours needed to prepare the information collection is 3,654; the frequency of response is once.

Respondent's Obligation: Voluntary.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: June 3, 2009.
