

paragraph (k)(1) of this section the class B stock shall be treated as FA stock for purposes of section 7874.

Example 18. Partnership interest treated as stock of foreign acquiring corporation. (i) *Facts.* (A) Individuals A and B equally own DC1. FA, a newly-formed corporation, issues stock in a public offering for cash. Individuals A and B and FA organize FPS. FA transfers part of the cash from the public offering to FPS in exchange for a class A partnership interest. FA holds few assets other than the class A partnership interest. Individuals A and B transfer their DC1 stock to FPS in exchange for class B partnership interests.

(B) The class B partnership interests entitle individuals A and B to cash distributions from FPS approximately equal to any dividend distributions made by FA with respect to its publicly traded stock. In certain circumstances, the class B partnership interests also permit individuals A and B to require FPS to redeem the interests in exchange for cash equal to the value of an amount of FA stock as determined on the redemption date. The class B partnership interests do not provide individuals A or B voting rights with respect to FA.

(ii) *Analysis.* The non-liquidating distribution rights provided by the class B partnership interests are substantially similar in all material respects to the dividend rights provided by the FA stock. Because FA holds few assets other than the class A partnership interest, the value of the class B partnership interests held by individuals A and B is approximately equal to a corresponding amount of FA stock. The distribution rights on liquidation (or redemption) provided by the class B partnership interests, therefore, are substantially similar in all material respects to distribution rights on liquidation (or redemption) provided by the FA stock. Thus, the distribution rights provided by the class B partnership interests are substantially similar in all material respects to the distribution rights provided by the publicly traded FA stock. As a result, if treating the class B partnership interests as FA stock would have the effect of treating FA as a surrogate foreign corporation, under paragraph (k)(1) of this section the class B partnership interests shall be treated as FA stock for purposes of section 7874.

Example 19. Creditor treated as a shareholder. (i) *Facts.* Individuals A and B equally own DC1. The liabilities of DC1 exceed the value of its assets. Pursuant to a plan, FA, a newly-formed corporation, acquires substantially all of the properties held by DC1 in exchange solely for FA stock. Pursuant to the plan, the DC1 stock held by individuals A and B is cancelled, and the creditors of DC1 receive all the FA stock in exchange for their claims against DC1.

(ii) *Analysis.* Because immediately before the first date on which properties are acquired as part of the acquisition described in section 7874(a)(2)(B)(i) the liabilities of DC1 exceed the value of its assets, under paragraph (k)(2)(i) of this section, for purposes of section 7874 the creditors of DC1 are treated as shareholders of DC1 and the creditors' claims against DC1 are treated as DC1 stock. Therefore, for purposes of section

7874(a)(2)(B)(ii) the FA stock received by the creditors of DC1 by reason of their claims against DC1 is considered held by former shareholders of DC1 by reason of holding DC1 stock.

Example 20. Conversion to a domestic corporation and application of section 367.

(i) *Facts.* Individuals A and B are United States persons and equally own DC1. Pursuant to a plan, individuals A and B transfer their DC1 stock to FA in exchange solely for 80 percent of the outstanding FA stock. After the acquisition, the expanded affiliated group that includes FA does not have substantial business activities in Country A when compared to the total business activities of the expanded affiliated group.

(ii) *Analysis.* Under paragraph (c)(1)(i) of this section, for purposes of section 7874(a)(2)(B)(i) FA is treated as acquiring all of the properties held by DC1 on the date of the stock acquisition. After the acquisition, the former shareholders of DC1 own 80 percent of the stock of FA by reason of holding DC1 stock. Therefore, FA is a surrogate foreign corporation that is treated as a domestic corporation under section 7874(b). Under paragraph (m)(1) of this section, except for purposes of determining whether FA is treated as a surrogate foreign corporation, the conversion of FA to a domestic corporation shall constitute a reorganization described in section 368(a)(1)(F) that occurs immediately before the stock acquisition. Section 367 applies to the conversion of FA to a domestic corporation. See, for example, §§ 1.367(b)–2 and 1.367(b)–3 for the consequences of the conversion. Under paragraph (m)(3) of this section, section 367 does not apply to the transfers of DC1 stock by individuals A and B to FA.

(o) *Effective/applicability date—(1) Temporary regulations filed on June 9, 2009.* This section shall apply to acquisitions completed on or after June 9, 2009. However, taxpayers may apply this section to acquisitions completed before June 9, 2009, if this section is applied consistently to all acquisitions completed before such date.

(2) *Application of prior temporary regulations to certain acquisitions completed on or after June 6, 2006.* Section 1.7874–2T, as contained in 26 CFR part 1 revised as of April 1, 2009, shall not apply to acquisitions completed on or after June 6, 2006, pursuant to a written agreement that was (subject to customary conditions) binding on December 28, 2005, and at all times thereafter (binding commitment). A binding commitment shall include options and similar interests entered into in connection with one or more written agreements described in the preceding sentence. Accordingly, § 1.7874–2T, as contained in 26 CFR part 1 revised as of April 1, 2009, shall not apply to acquisitions that occur, in whole or in part, as a

result of the exercise of such options or similar interests.

(p) *Expiration date.* The applicability of this section expires on or before June 8, 2012.

Linda E. Stiff,

Deputy Commissioner for Services and Enforcement.

Approved: June 8, 2009.

Michael Mundaca,

Acting Assistant Secretary of the Treasury (Tax Policy).

SUPPLEMENTARY INFORMATION:

Regulatory Information

On April 20, 2009 we published a notice of proposed rulemaking (NPRM) entitled "Safety zone; AVI July Fireworks Display; Laughlin, Nevada," in the **Federal Register** (74 FR 17931). We received no comments on the proposed rule. No public meeting was requested, and none was held.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register** because delaying the effective date would be contrary to the public interest, since immediate action is needed to ensure the public's safety.

Background and Purpose

The AVI Resort and Casino is sponsoring the AVI July fireworks display, which is to be held at the AVI Resort and Casino on the Lower Colorado River in Laughlin, Nevada. The Coast Guard is establishing a temporary safety zone on the navigable waters of the Lower Colorado River, Laughlin, NV in support of the AVI July fireworks display. The safety zone is set as a 1000 foot radius around the firing site in approximate position: 35°00'45" N, 114°38'18" W. This temporary safety zone is necessary to provide for the safety of the show's crew, spectators, participants of the event, participating vessels, and other vessels and users of the waterway.

Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and

Budget has not reviewed it under that Order.

This determination is based on the size and location of the safety zone. Commercial vessels will not be hindered by the safety zone. Recreational vessels will not be allowed to transit through the designated safety zone during the specified times.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit or anchor in a portion of the Colorado River from 8:15 p.m. to 9:15 p.m. on July 4, 2009. This safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons. The safety zone will only be in effect for one hour late in the evening when vessel traffic is low. Before the effective period, we will publish a Local Notice to Mariners (LNM).

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), in the NPRM we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247). The Coast Guard will not retaliate against small entities that question or complain

about this rule or any policy or action of the Coast Guard.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the

Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded, under figure 2-1, paragraph (34)(g), of the Instruction. This rule involves establishment of a safety zone.

An environmental analysis checklist and a categorical exclusion determination are available in the

docket where indicated under
