

on May 17, 2007 (72 FR 27853). The certification was amended on January 12, 2009 to include workers of the Administrative Office working out of Fresh Meadow, New York and Commack, New York. The notice was published in the **Federal Register** on January 12, 2009 (74 FR 4462).

At the request of the subject firm official, the Department reviewed the certification for workers of the subject firm. The workers are engaged in providing technical and administrative support services for the firm's production of polyester and nylon fibers.

New information shows that some of the workers' wages are being reported under a separate unemployment insurance (UI) tax account for Fiber Industries, Inc.

Accordingly, the Department is amending this certification to include workers of the subject firm whose UI wages are reported under the also known as name, Fiber Industries, Inc.

The intent of the Department's certification is to include all workers at Wellman, Incorporated, Administrative Offices, Fort Mill, South Carolina who were secondarily affected as an upstream supplier for a trade certified primary firm.

The amended notice applicable to TA-W-61,347 and TA-W-61,347A is hereby issued as follows:

"All workers of Wellman, Incorporated, Administrative Offices, also known as Fiber Industries, Inc., Fort Mill, South Carolina, (TA-W-61,347), including employees in support of Wellman, Incorporated, Administrative Offices, also known as Fiber Industries, Inc., Fort Mill, South Carolina, located in Fresh Meadow, New York and Commack, New York, New York (TA-W-61,347A), who became totally or partially separated from employment on or after April 11, 2006, through May 4, 2009, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on April 21, 2009, applicable to workers of North American Lighting, Inc., Salem, IL Plant, Salem, Illinois including on-site leased workers from Westaff, Manpower, and Select. Kenworth Truck Company, a Subsidiary of Paccar, Inc., Renton, WA; Notice of Negative Determination Regarding Application for Reconsideration

By application dated May 7, 2009, International Association of Machinists and Aerospace Workers, District Lodge,

No. 160 requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA), applicable to workers and former workers of the subject firm. The denial notice was signed on April 14, 2009 and published in the **Federal Register** on April 30, 2009 (74 FR 19996).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The initial investigation resulted in a negative determination based on the finding that imports of class 8 heavy duty trucks did not contribute importantly to worker separations at the subject facility and there was no shift of production to a foreign country. The subject firm did not import class 8 heavy duty trucks during the relevant period. The "contributed importantly" test is generally demonstrated through a survey of the workers' firm's declining domestic customers. In this case the survey was not conducted because the customers purchased all Class 8 heavy duty trucks exclusively from the subject firm.

The petitioner alleged that subject firm's competitors import heavy trucks and parts of heavy trucks, thus having an advantage over the subject firm in locating potential customers.

The impact of competitors on the domestic firms is revealed in an investigation through customer surveys and aggregate import analysis. In the case at hand, the Department solicited information from the customers of the subject firm to determine if customers purchased imported Class 8 heavy duty trucks. The information was intended to determine if competitor imports contributed importantly to layoffs at the subject firm. The investigation revealed no imports of Class 8 heavy duty trucks during the relevant period. The subject firm did not import class 8 heavy duty trucks nor was there a shift in production of class 8 heavy duty trucks from subject firm abroad during the relevant period. Furthermore, U.S. aggregate imports of Class 8 heavy duty trucks have been declining since 2006.
