This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in South America.

Chile intends to use these defense articles and services to modernize its armed forces. The Chileans intend to establish a new battalion to integrate this equipment into their armed forces. This will contribute to the Chilean military's goal to update its capability while further enhancing greater interoperability between Chile, the U.S., and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors involved in this program are: BAE Systems in York, Pennsylvania, L3 Communications in Lancaster, Pennsylvania, Smiths Detection, Inc. in Edgewood, Maryland, and Thales Raytheon Systems Company, LLC in Fullerton, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require 10 U.S. Government or contractor representatives to travel to Chile for a period of 4 weeks for equipment checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Dated: June 18, 2009.
