

Abstract: The New Source Performance Standards (NSPS) for Stationary Compression Ignition Internal Combustion Engines were proposed on July 11, 2005, and promulgated on July 11, 2006. These regulations apply to stationary compression ignition (CI) internal combustion engines (ICE).

Owners or operators of the affected facilities must submit an initial notification report also manufacturers are required to submit an application for certification, including emission data and other descriptive information for each engine family subject to the standard. They are also required to maintain records of corrective action taken after the backpressure monitor has alerted the owner or operator of a high backpressure limit. Annual reports are also required.

Any owner or operator subject to the provisions of this subpart must maintain a file of these measurements, and retain the file for at least two years following the collection of such measurements, maintenance reports, and records.

All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart IIII, as authorized in sections 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information estimated to average one hour per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose and provide information either to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Stationary source compression ignition internal combustion engines.

Estimated Number of Respondents: 206,290.

Frequency of Response: Initially and annually.

Estimated Total Annual Hour Burden: 192,197.

Estimated Total Annual Cost: \$19,015,209, which includes \$18,773,209 in labor costs, \$242,000 in operation and maintenance costs, and no capital/startup costs.

Changes in the Estimates: There is an adjustment increase of 47,062 hours in the total estimated labor hour burden as currently identified in the OMB Inventory of Approved ICR Burdens because the standard is now fully implemented. There has not been an increase in the number of facilities subject to the standard. It should be noted that the increase is not due to any program changes.

The previous ICR covered the initial phase of standard implementation, which occurred over a three-year period. Hence, the average number of respondents during the initial phase is less than the number of respondents when the standard is fully implemented. This ICR shows the labor hour burden after full implementation.

There are no changes of cost in the capital/startup and operating and maintenance (O&M) costs associated with this ICR.

Dated: July 2, 2009.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Petroleum Dry Cleaners (Renewal); EPA ICR Number 0997.09, OMB Control Number 2060-0079

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the

collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before August 10, 2009.

ADDRESSES: Submit your comments, referencing docket ID number EPA-OECA-2008-0372, to (1) EPA online using www.regulations.gov (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *Attention:* Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Sounjay Gairola, Office of Enforcement and Compliance Assurance, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; *telephone number:* (202) 564-4003; *e-mail address:* gairola.sounjay@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 30, 2008 (73 FR 31088), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2008-0372, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether

submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NSPS for Petroleum Dry Cleaners (Renewal)

ICR Numbers: EPA ICR Number 0997.09, OMB Control Number 2060–0079.

ICR Status: This ICR is scheduled to expire on August 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The New Source Performance Standards (NSPS) for Petroleum Dry Cleaners (40 CFR part 60, subpart JJJ) were proposed on December 14, 1982, promulgated on September 24, 1984, and amended on October 17, 2000 (65 FR 61773).

The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the General Provisions specified at 40 CFR part 60, subpart JJJ.

Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 22 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions;

develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Petroleum dry cleaners.

Estimated Number of Respondents: 18.

Frequency of Response: Initially.

Estimated Total Annual Hour Burden: 1,664.

Estimated Total Annual Cost: \$134,355 in labor costs exclusively. There are no annualized capital/startup costs or O&M costs associated with this ICR.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. Apparent differences of less than 500 hours are attributable to rounding; in previous years, hours were rounded to the nearest thousand; this ICR presents more exact figures.

Dated: July 2, 2009.

John Moses,

Director, Collection Strategies Division.

Notice of a Project Waiver of Section 1605 (Buy American Requirement) of the American Recovery and Reinvestment Act of 2009 (ARRA) to the Claywood Park Public Service District, West Virginia

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA is hereby granting a project waiver of the Buy American requirements of ARRA Section 1605 under the authority of Section 1605(b)(2) [manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality] to the Claywood Park Public Service District (PSD) for the purchase of

blowers at their Wastewater Treatment Plant (WWTP). These blowers are manufactured outside of the United States by Aerzen, a company based in Germany, and meet the PSD's technical specifications. The Acting Regional Administrator is making this determination based on the review and recommendations of the EPA Region III, Water Protection Division, Office of Infrastructure and Assistance. The Claywood Park Public Service District has provided sufficient documentation to support its request.

The Assistant Administrator of the EPA's Office of Administration and Resources Management has concurred on this decision to make an exception to Section 1605 of ARRA. This action permits the purchase of specific type blowers for the proposed project being implemented by the Claywood Park Public Service District.

DATES: *Effective Date:* June 8, 2009.

FOR FURTHER INFORMATION CONTACT: Robert Chominski, Deputy Associate Director, (215) 814–2162, or David McAdams, Environmental Engineer, (215) 814–5764, Office of Infrastructure & Assistance (OIA), Water Protection Division, U.S. EPA Region III, 1650 Arch Street, Philadelphia, PA 19103–2029.

SUPPLEMENTARY INFORMATION: In accordance with ARRA Section 1605(c) and pursuant to Section 1605(b)(2) of Public Law 111–5, Buy American requirements, EPA hereby provides notice that it is granting a project waiver to the Claywood Park Public Service District (PSD) for the acquisition of specialized blowers manufactured outside of the United States by Aerzen, a company based in Germany. Section 1605 of the ARRA requires that none of the appropriated funds may be used for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States unless a waiver is provided to the recipient by EPA. A waiver may be provided if EPA determines that (1) Applying these requirements would be inconsistent with public interest; (2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or (3) inclusion of iron, steel, and the relevant manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent.

The PSD has provided information to the EPA representing that there are
