

Resources Conservation Service Guidelines (7 CFR part 650): The Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for Pocasset River Watershed, Providence County, Rhode Island.

FOR FURTHER INFORMATION CONTACT:

Phoukham Vongkhamdy, State Conservationist, Natural Resources Conservation Service, 60 Quaker Lane, Suite 46, Warwick, RI 02886, telephone: (401) 828-1300.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project may cause significant local, regional, or national impacts on the environment. As a result of these findings, Phoukham Vongkhamdy, State Conservationist, has determined that the preparation and review of an environmental impact statement is needed for this project.

The project concerns flood prevention. Alternatives under consideration to reach these objectives include: A. Construction of six floodwall structures and flood proofing. B. No Action alternative.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Natural Resources Conservation Service invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft environmental impact statement. Further information on the proposed action may be obtained from Phoukham Vongkhamdy, State Conservationist, at the above listed address or telephone (401) 828-1300.

Signed in Warwick, RI on July 1, 2009.

Phoukham Vongkhamdy,
State Conservationist.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.)

BILLING CODE 3410-16-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2009-0049]

Pale Cyst Nematode; Update of Quarantined Areas

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of changes to quarantined area.

SUMMARY: We are advising the public that we have made changes to the area in the State of Idaho that is quarantined to prevent the spread of pale cyst nematode. The description of the quarantined area was updated on April 8, 2009, when approximately 3,488 acres were removed from the quarantined area, and on May 8, 2009, when an additional 3,333 acres were removed from the quarantined area.

FOR FURTHER INFORMATION CONTACT: Ms. Eileen Y. Smith, National Program Manager, Emergency and Domestic Programs, PPQ, APHIS, 4700 River Road, Unit 150, Riverdale, MD 20737-1236; (301) 734-5235.

SUPPLEMENTARY INFORMATION:

Background

The pale cyst nematode (PCN, *Globodera pallida*) is a major pest of potato crops in cool-temperature areas. Other solanaceous hosts include tomatoes, eggplants, peppers, tomatillos, and some weeds. The PCN is thought to have originated in Peru and is now widely distributed in many potato-growing regions of the world. PCN infestations may be expressed as patches of poor growth. Affected potato plants may exhibit yellowing, wilting, or death of foliage. Even with only minor symptoms on the foliage, potato tuber size can be affected. Unmanaged infestations can cause potato yield loss ranging from 20 to 70 percent. The spread of this pest in the United States could result in a loss of domestic or foreign markets for U.S. potatoes and other commodities.

The PCN quarantine regulations (§§ 301.86 through 301.86-9, referred to below as the regulations) set out procedures for determining the areas quarantined for PCN and impose restrictions on the interstate movement of regulated articles from quarantined areas.

Section 301.86-3 of the regulations sets out the procedures for determining the areas quarantined for PCN. Paragraph (a) of § 301.86-3 states that, in accordance with the criteria listed in § 301.86-3(c), the Administrator will

designate as a quarantined area each field that has been found to be infested with PCN, each field that has been found to be associated with an infested field, and any area that the Administrator considers necessary to quarantine because of its inseparability for quarantine enforcement purposes from infested or associated fields.

Paragraph (c) provides that the Administrator will designate a field as an infested field when PCN is found in the field. Paragraph (c) also provides that the Administrator will designate a field as an infested field when PCN host crops, as listed in § 301.86-2(b), have been grown in the field in the last 10 years and the field shares a border with an infested field; the field came into contact with a regulated article listed in § 301.86-2 from an infested field within the last 10 years; or, within the last 10 years, the field shared ownership, tenancy, seed, drainage or runoff, farm machinery, or other elements of shared cultural practices with an infested field that could allow spread of PCN, as determined by the Administrator.

Paragraph (b) describes the conditions for the designation of an area less than an entire State as a quarantined area. Less than an entire State will be designated as a quarantined area only if the Administrator determines that:

- The State has adopted and is enforcing restrictions on the intrastate movement of the regulated articles that are equivalent to those imposed by the regulations on the interstate movement of regulated articles; and
- The designation of less than the entire State as a quarantined area will prevent the interstate spread of PCN.

We have determined that it is not necessary to designate the entire State of Idaho as a quarantined area. Idaho has adopted and is enforcing restrictions on the intrastate movement of regulated articles from that area that are equivalent to those we are imposing on the interstate movement of regulated articles.

Paragraph (d) provides for the removal of fields from quarantine. An infested field will be removed from quarantine when a protocol approved by the Administrator as sufficient to support the removal of infested fields from quarantine has been completed and the field has been found to be free of PCN. An associated field will be removed from quarantine when the field has been found to be free of PCN according to a protocol approved by the Administrator as sufficient to support removal of associated fields from quarantine. Any area other than infested or associated fields which has been

quarantined by the Administrator because of its inseparability for quarantine enforcement purposes from infested or associated fields will be removed from quarantine when the relevant infested or associated fields are removed from quarantine.

Paragraph (a) of § 301.86–3 further provides that the Administrator will publish the description of the quarantined area on the Plant Protection and Quarantine (PPQ) Web site, http://www.aphis.usda.gov/plant_health/plant_pest_info/potato/pcn.shtml. The description of the quarantined area will include the date the description was last updated and a description of the changes that have been made to the quarantined area. The description of the quarantined area may also be obtained by request from any local office of PPQ; local offices are listed in telephone directories. Finally, paragraph (a) establishes that, after a change is made to the quarantined area, we will publish a notice in the **Federal Register** informing the public that the change has occurred and describing the change to the quarantined area.

We are publishing this notice to inform the public of changes to the PCN quarantined area in accordance with § 301.86–3(a). On April 8, 2009, we updated the quarantined area to remove approximately 3,488 acres. On May 8, 2009, we updated the quarantined area to remove an additional 3,333 acres. This acreage was composed of associated fields that were found to be free of PCN according to a survey protocol approved by the Administrator as sufficient to support removal of associated fields from quarantine, under § 301.86–3. The fields removed from quarantine were in Bingham, Bonneville, and Jefferson Counties.

The current map of the quarantined area can be viewed on the PPQ Web site at http://www.aphis.usda.gov/plant_health/plant_pest_info/potato/pcn.shtml.

Authority: 7 U.S.C. 7701–7772 and 7781–7786; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 6th day of July 2009.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P

DEPARTMENT OF AGRICULTURE

Forest Service

Proposed Fee

Authority: Federal Lands Recreation Enhancement Act, (Title VIII, Pub. L. 108–447)

AGENCY: Okanogan-Wenatchee National Forest, USDA Forest Service.

ACTION: Notice.

SUMMARY: The Okanogan-Wenatchee National Forest, Naches Ranger District, proposes to charge new fees at four recreation sites. A \$5.00 per vehicle per night charge at Ponderosa Camp, Lost Meadow, Longmire Meadow and Long Meadow camp areas in the Little Naches drainage is under consideration. The fee would not apply to any towed vehicle(s). Fees are assessed based on the level of amenities and services provided, cost of operation and maintenance, market assessment, and public comment. Revenue generated would be used for operation and maintenance of existing facilities at the sites, increased services, and potential future improvements. The fees listed are only proposed and will be determined upon further analysis and public comment.

DATES: Submit comments on or before January 31, 2010. The proposed fee could be implemented as soon as May 2010.

ADDRESSES: Address all comments to Randall Shepard, Naches District Ranger, 10237 US Highway 12, Naches, Washington 98937, (509) 653–1401. Submit electronic comments and other data to jbeidl@fs.fed.us.

FOR FURTHER INFORMATION CONTACT: Jacqueline Beidl (509) 653–1432.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108–447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established.

Once public involvement is complete, these new fees will be reviewed by a Recreation Resource Advisory Committee prior to a final decision and implementation.

Dated: July 6, 2009.

Randall Shepard,

District Ranger.

BILLING CODE 3410–11–P

COMMISSION ON CIVIL RIGHTS

Agenda and Notice of Public Meeting of the Texas Advisory Committee

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission), and the Federal Advisory Committee Act (FACA), that a meeting of the Texas Advisory Committee (Committee) to the Commission will convene on Thursday, August 6, 2009 at 1 p.m. and adjourn at 4 p.m. at the Committee Room, State Capitol, 1100 Congress Ave., Austin, Texas. The purpose of the meeting is for the Committee to plan activities for fiscal year 2010.

Members of the public are entitled to submit written comments. The comments must be received in the regional office by September 6, 2009. The address is U.S. Commission on Civil Rights, 300 North Los Angeles St., Suite 4333, Los Angeles, CA 90012. Persons wishing to e-mail their comments, or to present their comments verbally at the meeting, or who desire additional information should contact Peter Minarik, Regional Director, Western Regional Office, at (213) 894–3437 or 800–877–8339 for individuals who are deaf, hearing impaired, and/or have speech disabilities or by e-mail to pminarik@usccr.gov.

Hearing-impaired persons who will attend the meeting and require the services of a sign language interpreter should contact the Regional Office at least ten (10) working days before the scheduled date of the meeting.

Records generated from this meeting may be inspected and reproduced at the Western Regional Office, as they become available, both before and after the meeting. Persons interested in the work of this advisory committee are advised to go to the Commission's Web site, <http://www.usccr.gov>, or to contact the Western Regional Office at the above e-mail or street address.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission and FACA.

Dated in Washington, DC, July 7, 2009.

Peter Minarik,

Acting Chief, Regional Programs Coordination Unit.
