SMALL BUSINESS ADMINISTRATION

Small Business Size Standards: Waiver of the Nonmanufacturer Rule

AGENCY: U.S. Small Business Administration.

ACTION: Notice of Waiver of the Nonmanufacturer Rule for 13 Watt Compact Fluorescent Lamps (CFLs), 26 Watt CFLs, and Occupancy Sensors Dual Technology.

SUMMARY: The U.S. Small Business Administration (SBA) is granting a class waiver of the Nonmanufacturer Rule for 13 Watt CFLs, 26 Watt CFLs, and Occupancy Sensors Dual Technology. The basis for the waiver is that no small businesses manufacturers are supplying these classes of products to the Federal government. The effect of a waiver would be to allow otherwise qualified small businesses to supply the products of any manufacturer on a Federal contract set aside for small businesses, service-disabled veteran-owned small businesses, or Participants in SBA's 8(a) Business Development (BD) Program.

DATES: The waiver is effective July 29, 2009.

FOR FURTHER INFORMATION CONTACT: Ms. Edith G. Butler, by telephone at (202) 619-0422; by FAX at (202) 481-1788; or by e-mail at edith.butler@sba.gov.

SUPPLEMENTARY INFORMATION: Section 8(a)(17) of the Small Business Act (Act), and 15 U.S.C. 637(a)(17), require SBA's implementing regulations that recipients of Federal contracts set aside for small businesses, service-disabled veteran-owned small businesses, or Participants in the SBA's 8(a) BD Program must provide the product of a small business manufacturer or processor, if the recipient is other than the actual manufacturer or processor of the product. This requirement is commonly referred to as the Nonmanufacturer Rule. The SBA's regulations imposing this requirement are found at 13 CFR 121.406(b), 125.15(c). Section 8(a)(17)(b)(iv) of the Act authorizes SBA to waive the Nonmanufacturer Rule for any "class of products" for which there are no small business manufacturers or processors available to participate in the Federal market.

In order to be considered available to participate in the Federal market for a class of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal government within the last 24 months. 13 CFR 121.1202(1). The SBA defines "class of products" based on the Office of Management and Budget North American Industry Classification System (NAICS). In addition, SBA uses product service codes to identify particular products within the NAICS code to which a waiver would apply.

The SBA received a request on May 13, 2009, to waive the Nonmanufacturer Rule for 13 Watt CFLs, 26 Watt CFLs, and Occupancy Sensors Dual, North American Industry Classification System (NAICS) code 335110, product service code 6240. In response, no small business manufacturers were identified.

Dated: July 8, 2009.

James A. Gambardella,

Acting Director, Office of Government Contracting.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASDAQ OMX BX has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASDAQ OMX BX is proposing to provide a voluntary anti-internalization function. Under the proposal, market participants entering quotes/orders under a specific market participant identifier ("MPID") may voluntarily direct that they not execute against other quotes/orders entered into the System under the same MPID.

Under the proposal, the System, if requested, will not execute quote/orders entered under the same MPID against each other. Instead, the System will execute against all eligible trading interest of other market participants, in time-priority, up to the point where it would interact with a resting order having the MPID and thereupon immediately cancel any remaining portion of the most recently entered of the two same-MPID quote/orders to its entering party.

Anti-internalization functionality is designed to assist market participants in complying with certain rules and regulations of the Employee Retirement Income Security Act ("ERISA") that preclude and/or limit managing broker-dealers of such accounts from trading as principal with orders generated for those accounts. It can also assist market participants in reducing execution fees potentially resulting from the interaction of executable buy and sell trading interest from the same firm. Nasdaq OMX BX notes that use of the functionality does not relieve or otherwise modify the duty of best execution owed to orders received from public customers. As such, market participants using anti-internalization functionality will need to take appropriate steps to ensure that public customer orders that do not execute because of the use of anti-internalization functionality ultimately receive the same execution price (or better) they would have originally obtained if execution of the order was not inhibited by the functionality.

2. Statutory Basis

Nasdaq OMX BX believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁵ in general, and with Sections [sic] 6(b)(5) of the Act,⁶ in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Nasdaq OMX BX notes that similar functionality has previously [sic] approved for other trading systems.⁷

⁶ 15 U.S.C. 78f(b)(5).

⁷ See SR-NASD-2003-039.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASDAQ OMX BX does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁸ and Rule 19b-4(f)(6) thereunder.⁹

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-60258; File No. SR-CHX-2009-07]

Self-Regulatory Organizations; Chicago Stock Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Participant Fees and Credits

July 7, 2009.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 29, 2009, the Chicago Stock Exchange, Inc. ("CHX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. CHX filed the proposal pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(2) thereunder,⁴ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CHX proposes to amend its Schedule of Participant Fees and Assessments (the "Fee Schedule"), effective July 1, 2009, to provide for an increased rebate for trade executions of one-sided orders in Tape A and C securities which execute within the Exchange's Matching System. The Exchange also proposes to delete obsolete text from the Fee Schedule. The text of this proposed rule change is available on the Exchange's Web site at http://www.chx.com/rules/proposed_rules.htm and in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The

Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Through this filing, the Exchange would amend its Fee Schedule, effective July 1, 2009, to provide for an increased rebate for trade executions of one-sided orders in Tape A and C securities which execute within the Exchange's Matching System. The Fee Schedule would be amended to provide for an increased Rebate of \$0.0029 per share in Tape A and C securities if liquidity was provided to the Matching System. The Exchange believes that the increased rebate will help attract additional orders to be displayed and executed on our trading facilities. The Exchange notes that some of our competitors have recently raised their provide rebates, and that our proposed increase will help us remain competitive with these entities. While an increase in transaction volume would not increase the amount of direct transaction revenue in Tape A and C securities to the Exchange (since the provide credit would equal the take fees), the Exchange believes that an increase in market data revenue arising from the execution of such transactions would provide additional revenue.

Finally, the Exchange proposes to make certain minor corrections and updates to the Fee Schedule. These corrections and updates include the deletion of certain obsolete sections of the Fee Schedule which refer to Specialist Credits and the Specialist Fixed Fee. The Exchange discontinued its Specialist program as part of the transition to its New Trading Model in late 2006 and early 2007, and such fees are no longer being assessed.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act⁵ in general, and furthers the objectives of Section 6(b)(4) of the Act⁶ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among its members. Among other things, the change to the fee schedule would increase the amount of credits paid to liquidity providers and may contribute to an increase in trading volume on the Exchange's facilities and
