ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2009-0123; FRL-8424-2]

Pentachloronitrobenzene (PCNB); Amendments to Terminate Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the amendments to terminate uses, voluntarily requested by the registrants and accepted by the Agency, of certain products containing the pesticide PCNB, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This order follows a March 30, 2009 **Federal Register** Notice of Receipt of Requests from the PCNB registrants to amend voluntarily certain of their PCNB product registrations. Specifically, the registrants requested to amend their registrations to terminate the following uses of PCNB: Golf course roughs; residential sites including lawns, yards, and ornamental plants and gardens around homes and apartments; grounds around day care facilities; school yards; parks (except industrial parks); playgrounds; and athletic fields (except professional and college fields). In the March 30, 2009 Notice, EPA indicated

that it would issue an order implementing the amendments to terminate uses, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests within this period. The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice an order granting the requested amendments to terminate certain uses. Any distribution, sale, or use of the PCNB products subject to this order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective July 15, 2009.

These registrations are listed in sequence by registration number in Table 1 of this unit. Since the registrants submitted their initial 6(f)(1) requests to amend their registrations to terminate uses, Chemtura requested the transfer of most of its PCNB registrations to Amvac, including all of those PCNB registrations for which Chemtura had requested amendment. The transfer was approved on April 23, 2009. Therefore, Amvac will be responsible for amending all of the following registrations in accordance with this order. Former and current EPA registration numbers are shown for all affected products.
