Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Tuscarora Gas Transmission Company; Notice Deferring Technical Conference

January 12, 2009.

On January 12, 2009, Tuscarora Gas Transmission Company (Tuscarora) filed a request for deferral of the technical conference scheduled in the above-captioned proceeding for January 15, 2009.¹ Tuscarora states that it has reached a settlement in principle with the active parties in this proceeding, and that it anticipates filing an offer of settlement that will resolve all of the issues in this proceeding by February 12, 2009. Therefore, Tuscarora requests that the Commission defer the date of the technical conference until mid-February 2009, to allow the parties time to prepare and review the offer of settlement. Tuscarora states that it is authorized by the active parties in this proceeding to express their support for this request to defer both the technical conference date and the effective date of the suspended tariff sheets.²

By this notice, Tuscarora's request for deferral of the dates related to the technical conference is granted. The technical conference scheduled for January 15, 2009, is thereby postponed until further notice.

For further information please contact Timothy Duggan at (202) 502-8326 or e-mail Timothy.Duggan@ferc.gov.

Kimberly D. Bose,

Secretary.

[FR Doc. E9-1017 Filed 1-16-09; 8:45 am]

BILLING CODE 6717-01-P

¹ The Commission directed that a technical conference be held to address the issues raised by Tuscarora's October 1, 2008 tariff filing in this proceeding. *Tuscarora Gas Transmission Co.*, 125 FERC ¶ 61,133 (2008). The technical conference was originally scheduled for December 11, 2008. At the request of the active parties, the Commission issued a notice on December 8, 2008, that postponed the date of the technical conference to January 15, 2009.

² Given agreement in principle among the active parties, Tuscarora agrees not to move into effect the tariff sheets previously suspended by the Commission in this proceeding prior to June 1, 2009. This deferral of the effectiveness of the suspended tariff sheets will afford time for a possible settlement to be filed and considered by the Commission.

Freeport LNG Development, L.P.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Freeport LNG Export and Bog Liquefaction and Truck Delivery Facilities Projects and Request for Comments on Environmental Issues

January 12, 2009.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will address the environmental impacts of the Freeport LNG Export Project (Export Project) and Bog Liquefaction and Truck Delivery Facilities Project (BOG/Truck Project) collective called the Freeport Projects proposed by Freeport LNG Development, L.P. (Freeport LNG) in Brazoria County, Texas.¹ This EA will be used by the Commission in its decision-making process to determine whether or not to authorize the projects.²

This notice announces the opening of the scoping process we³ will use to gather environmental input from the public and interested agencies on the projects. Your input will help the Commission staff determine which issues need to be addressed.

This notice is being sent to affected landowners; federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

Summary of the Proposed Projects

Export Project

The purpose of the project is to add Liquefied Natural Gas (LNG) export

¹ During routine terminal operations, ambient heat in the LNG storage tanks and piping causes small amount of LNG to evaporate. The vaporizing LNG is referred to as BOG or boil-off gas. The BOG increases the storage tank pressure until a point where it must be transferred, flared, or re-liquefied.

² On November 19, and December 9, 2008, Freeport LNG filed its applications with the Commission under section 3 of the Natural Gas Act and Part 157 of the Commission's regulations. The Commission issued its Notices of Application on December 2, and 16, 2009.

³ 'We,' 'us,' and 'our' refer to the environmental staff of the FERC's Office of Energy Projects.
