change, as amended, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is proposing to amend its rules to implement a broadcast message that will inform members when a non-marketable all-or-none limit order is placed on the limit order book. The text of the proposed rule change is as follows, with additions italicized:

Rule 717. Limitations on Orders

Supplementary Material to Rule 717
.01—.03 No Change.

.04 *A non-marketable all-or-none limit order shall be deemed "exposed" for the purposes of paragraphs (d) and (e) one second following a broadcast notifying members that such an order to buy or sell a specified number of contracts at a specified price has been received in the options series. This provision shall be in effect on a pilot basis expiring October 9, 2009.*

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) *Purpose*—Pursuant to ISE Rule 717(d) and (e), Electronic Access Members must expose agency orders on the Exchange for at least one second before entering a contra-side proprietary order or a contra-side order that was solicited from a broker-dealer, or utilize one of the Exchange's execution mechanisms that have one second exposure periods built into the functionality.⁴

The Exchange operates an integrated system that consolidates all market maker quotes and orders, and

automatically disseminates the best bid and offer. If a limit order is designated as all-or-none, the contingency that the order must be executed in full makes it ineligible for display in the best bid or offer. Nevertheless, such orders are maintained in the system and remain available for execution after all other trading interest at the same price has been exhausted.⁵ Upon the receipt of a non-marketable all-or-none limit order, the system automatically will send a broadcast message to all members notifying them that an all-or-none order to buy or to sell a specified number of contracts at a specified price has been placed on the book.

The purpose of this rule change is to specify that a non-marketable all-or-none limit order is deemed "exposed" for the purposes of Rule 717(d) and (e) one second following a broadcast notifying members that such an order to buy or sell a specified number of contracts at a specified price has been received in the options series. Thus, all of the terms of the order will be disclosed to all members. The Exchange proposes to adopt this rule change on a three-month pilot basis expiring October 9, 2009.

The Exchange notes that the Commission has previously determined that an order can be deemed "exposed" even in circumstances where the actual terms of the order are not disseminated. Specifically, the Commission approved the Price Improving Order type on the Nasdaq Options Market, which is a limit order in penny increments that is rounded to the minimum price variation in the security for display purposes.⁶ The Commission concluded that this order could be deemed "exposed" under the NOM rule that is substantively identical to the exposure requirement contained in ISE Rule 717(d) and (e). Although the actual terms of the order are not displayed to market participants, the Commission found that the ability to "fish" inside the displayed quote, coupled with the restriction on participants that initially submitted the Price Improving Order from trading with that order until after the exposure period had elapsed, provided a meaningful opportunity for interaction prior to the time at which the submitting participant could interact with the order. The Commission also noted that Price Improving Orders might be executed against other trading interest in the system, which will also

be the case with respect to all-or-none orders on the Exchange.

The Exchange believes its broadcast message provides complete exposure of all-or-none orders, which is greater exposure than that of Price Improving Orders at NOM, as market participants will be explicitly informed when there is a non-displayed order, as well as the size and price of such order. In contrast, the only indication that there may be a Price Improving Order available for execution on NOM is an increase in size at the NOM best bid or offer ("BBO") or a new displayed price at the NOM BBO. Since the displayed size and price change constantly, NOM market participants do not know whether there is in fact a non-displayed order available for execution. Therefore, the opportunity for NOM participants to "fish" for such non-displayed orders is greatly diminished. In contrast, the ISE's broadcast message will specify all of the terms of an all-or-none order.

(b) *Basis*—The basis under the Act for this proposed rule change is the requirement under Section 6(b)(5) that an exchange have rules that are designed to promote just and equitable principles of trade, and to remove impediments to and perfect the mechanism for a free and open market and a national market system, and in general, to protect investors and the public interest. In particular, under the proposed rule change all-or-none orders will be exposed to all members on a three-month pilot basis so that there is a greater opportunity for market participants to interact with such orders.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change: (i) Does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and

⁶ Securities Exchange Act Release No. 57478 (March 12, 2008), 73 FR 14521 (March 18, 2008).

(iii) does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁷ and Rule 19b-4(f)(6) thereunder.⁸

A proposed rule change filed under Rule 19b-4(f)(6) normally may not become operative prior to 30 days after the date of filing.⁹ However, Rule 19b-4(f)(6)(iii)¹⁰ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. ISE has requested that the Commission waive the 30-day operative delay. ISE states that under the proposal, all-or-none orders will be exposed to all members so that there is a greater opportunity for market participants to interact with such orders. The Commission also notes that the proposal is on a three-month pilot basis. For these reasons, the Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, and designates the proposed rule change to be operative upon filing with the Commission.¹¹

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹²

change is consistent with the Act. Comments may be submitted by any of the following methods:
