p. Although our current intent is to prepare an environmental assessment (EA), there is the possibility that an Environmental Impact Statement (EIS) will be required. Nevertheless, this meeting will satisfy the NEPA scoping requirements, irrespective of whether an EA or EIS is issued by the Commission.

Scoping Meetings

Commission staff will hold two scoping meetings in the vicinity of the project at the time and place noted below. The daytime meeting will focus on resource agency, Indian tribes, and non-governmental organization concerns, while the evening meeting is primarily for receiving input from the public. We invite all interested individuals, organizations, and agencies to attend one or both of the meetings, and to assist staff in identifying particular study needs, as well as the scope of environmental issues to be addressed in the environmental document. The times and locations of these meetings are as follows:

Daytime Scoping Meeting

Date: Wednesday August 12, 2009.

Time: 7 p.m.

Location: Sai Convention Center, 2301 N. MacArthur Drive, Alexandria, LA, 71301.

Phone: (318) 619–3300.

Evening Scoping Meeting

Date: Thursday August 13, 2009.

Time: 10 a.m.

Location: Sai Convention Center, 2301 N. MacArthur Drive, Alexandria, LA, 71301.

Phone: (318) 619–3300.

Scoping Document 1 (SD1), which outlines the subject areas to be addressed in the environmental document, was mailed to the individuals and entities on the Commission’s mailing list. Copies of SD1 will be available at the scoping meetings, or may be viewed on the Web at <http://www.ferc.gov>, using the “eLibrary” link. Follow the directions for accessing information in paragraph n. Based on all oral and written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as a list of issues, identified through the scoping process.

Site Visit

The potential applicant and Commission staff will conduct a site visit of the project on Wednesday, August 12, 2009. Those wishing to

participate should meet at the John H. Overton Lock and Dam Recreation Area (west) at 9 a.m. For directions, and to appropriately accommodate persons interested in attending the site visit, participants should contact Erik Steimle by August 6, 2009 [e-mail, erik.steimle@sympbionicsenergy.com or phone, (503) 235–3424]. All participants are responsible for their own transportation.

Meeting Objectives

At the scoping meetings, staff will: (1) Initiate scoping of the issues; (2) review and discuss existing conditions and resource management objectives; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission’s regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting and certification processes; and (5) discuss the appropriateness of any federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting participants should come prepared to discuss their issues and/or concerns. Please review the PAD in preparation for the scoping meetings. Directions on how to obtain a copy of the PAD and SD1 are included in item n. of this document.

Meeting Procedures

The meetings will be recorded by a stenographer and will become part of the formal record of the Commission proceeding on the project.

Domtar Maine Corporation and Domtar Maine LLC; Notice of Applications for Transfer of Licenses, Substitution of Relicense Applicant, and Soliciting Comments, Motions To Intervene, and Protests

July 17, 2009.

On June 9, 2009, Domtar Maine Corporation (Transferor) and Domtar

Maine LLC (Transferee) filed a joint application for: (1) The transfer of licenses of the Vanceboro Project No. 2492, located on the East Branch of the St. Croix River in Washington County, Maine and New Brunswick, Canada, the West Branch Project No. 2618, located on the West Branch of the St. Croix River in Hancock, Penobscot, and Washington Counties, Maine, and the Forest City Project No. 2660, located on the East Branch of the St. Croix River in Washington and Aroostock Counties, Maine, and New Brunswick, Canada, and (2) the substitution of the Transferee for the Transferor as the applicant in the pending applications for new licenses filed by the Transferor in Project Nos. 2618–020 and 2660–024.

The transfer application was filed within five years of the expiration of the license for Project Nos. 2618 and 2660, which are the subject of pending relicensing applications. In *Hydroelectric Relicensing Regulations Under the Federal Power Act* (54 FR 23756 *FERC Stats. and Regs., Regs. Preambles* 1986–1990 30,854 at p. 31,437), the Commission declined to forbid all license transfers during the last five years of an existing license, and instead indicated that it would scrutinize all such transfer requests to determine if the transfer’s primary purpose was to give the transferee an advantage in relicensing.
