FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Approved by the Office of Management and Budget

July 21, 2009.

SUMMARY: The Federal Communications Commission has received Office of Management and Budget (OMB) approval for the following public information collection(s) pursuant to the Paperwork Reduction Act of 1995 (44

U.S.C. 3501-3520). An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number, and no person is required to respond to a collection of information unless it displays a currently valid OMB control number. Comments concerning the accuracy of the burden estimate(s) and any suggestions for reducing the burden should be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0751.

OMB Approval Date: December 12, 2008.

Expiration Date: December 31, 2011.

Title: Section 43.51, Reports Concerning International Private Lines Interconnected to the U.S. Public Switched Network.

Form Number: Not Applicable.

Estimated Annual Burden: 40 responses; 6-8 hours per response; 300 hours total per year.

Annual Cost Burden: None.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 154, 211, 219 and 220.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission has determined that the authorized resale of international private lines interconnected to the U.S. public switched network would tend to divert international message telephone service (IMTS) traffic from the settlements process and increase the U.S. net settlements deficit. The information will be used by the Commission in reviewing the impact, if any, that end-user private line interconnections have on the Commission's international settlements policy. The data will also enhance the ability of both the Commission and interested parties to monitor the unauthorized resale of international private lines that are interconnected to the U.S. public switched network.

OMB Control Number: 3060-0768.

OMB Approval Date: January 30, 2009.

Expiration Date: December 31, 2011.

Title: 28 GHz Band.

authority for this collection of information is contained in 47 U.S.C. 154 and 303(r).

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: Applicants and licensees are required to provide the requested information to the Commission and other third parties whenever they seek authority to provide service in the 28 GHz band. If this information is compiled less frequently or not filed in conjunction with the Commission's rules, applicants and licensees will not obtain the authorization necessary to provide telecommunications services. Furthermore, the Commission would not be able to carry out its mandate as required by statute.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: This information collection is used by the Commission to assign frequencies for use by international broadcast stations, to grant authority to operate such stations and to determine if interference or adverse propagation conditions exist that may impact the operation of such stations. The Commission collects this information pursuant to 47 CFR part 73, subpart F. If the Commission did not collect this information, it would not be in a position to effectively coordinate spectrum for international broadcasters or to act for entities in times of frequency interference or adverse propagation conditions.

Form Number: Not Applicable.

Estimated Annual Burden: 306 responses; 1 hour per response; 306 total hours per year.

Annual Cost Burden: None.

Obligation to Respond: Voluntary. The statutory authority for this information collection is contained in sections 4(i), 7(a), 11, 303(c), 303(f), 303(g), and 303(r) of the Communications Act of 1934, as amended; 47 U.S.C. section 154(i), 157(a), 161, 303(c), 303(f), 303(g), and 303(r).

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: Licensees file surrenders of authorizations with the

Commission on a voluntary basis. This information is used by Commission staff to issue Public Notices to announce the surrenders of authorization to the general public. The Commission's release of Public Notices is critical to keeping the general public abreast of the licensees' discontinuance of telecommunications services. Without this collection of information, licensees would be required to submit surrenders of authorizations to the Commission by letter which is more time consuming than submitting such requests to the Commission electronically. In addition, Commission staff would spend an extensive amount of time processing surrenders of authorizations received by letter. The collection of information saves time for both licensees and Commission staff since they are received in MyIBFS electronically and include only the information that is essential to process the requests in a timely manner. Furthermore, the E-filing module expedites the Commission staff's announcement of surrenders of authorizations via Public Notice.
