

under Rule G–30. Large differences between institutional and individual prices that exceed the price/yield variance that normally applies to transactions of different sizes in the primary market provide evidence that the duty of fair pricing to individual clients may not have been met.

2. Statutory Basis

The MSRB has adopted the proposed rule change pursuant to Section 15B(b)(2)(C) of the Act,⁵ which provides that the MSRB's rules shall:

Be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in municipal securities, to remove impediments to and perfect the mechanism of a free and open market in municipal securities, and, in general, to protect investors and the public interest.

The MSRB believes that the proposed rule change is consistent with the Act because it will further investor protection by strengthening and clarifying dealers' customer protection obligations relating to sales of municipal securities to individual and other retail customers, including but not limited to the duty to provide material information to customers investing in municipal securities and to use material information in fulfilling their suitability obligations and their fair pricing obligations.

B. Self-Regulatory Organization's Statement on Burden on Competition

The MSRB does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended, since it would apply equally to all dealers.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change has become effective pursuant to Section 19(b)(3)(A)(i) of the Act⁶ and Rule 19b–4(f)(1) thereunder,⁷ in that the proposed

rule change constitutes a stated policy, practice, or interpretation with respect to the meaning, administration, or enforcement of an existing rule of the self-regulatory organization. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.⁸

IV. Solicitation of Comments

SSA uses Form SSA–773–U4 for claimants, or their representatives, to officially waive their right to appear at a disability hearing. The disability hearing officer uses the signed form as a basis for not holding a hearing and for preparing a written decision on the claimant's request for disability based solely on the evidence of record. The respondents are claimants for disability, or their representatives, under Titles II and XVI of the Social Security Act, who wish to waive their right to appear at a disability hearing.

they wish to appear at a disability hearing. The claimants can also use this form to submit any additional information/evidence for use in the reconsidered determination and to indicate if they will need an interpreter for the hearing. The information the DDSs collect on this form is crucial in making disability determinations for all adult claimants filing for SSA disability benefits and/or SSI payments. SSA has a password infrastructure and process to verify the identity of individuals who choose to use the Internet and the automated telephone response system to conduct personal business with SSA in an electronic environment. To obtain a

password from SSA's individual password services, we prescribe information an individual must provide. SSA uses the information to authenticate an individual prior to issuing a temporary password. Once the individual creates a permanent password, he or she may use SSA password protected services, e.g.,

account status, change of address, direct deposit elections, or changes. The respondents are individuals electing to do personal business with SSA through an electronic medium.

In addition, after SSA selects a representative payee, the payee must provide SSA with information on his or her continuing relationship and responsibility for the beneficiary and explain how he or she used the beneficiary's payments.
