Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Department of Homeland Security Management Directive 0023.1 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction because the rule establishes a safety zone.

An environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under ADDRESSES.

I. Background

The Postal Service seeks to add a new product identified as Priority Mail Contract 13 to the Competitive Product List. For the reasons discussed below, the Commission approves the Request.

On June 15, 2009, the Postal Service filed a notice, pursuant to 39 U.S.C. 3632(b)(3) and 39 CFR 3015.5, announcing that it has entered into an additional contract (Priority Mail Contract 13), which it attempts to classify within the previously proposed Priority Mail Contract Group product.¹ In support, the Postal Service filed the proposed contract and referenced Governors' Decision 09–6 filed in Docket No. MC2009–25. *Id.* at 1. The Notice has been assigned Docket No. CP2009–39.

In response to Order No. 224,² and in accordance with 39 U.S.C. 3642 and 39 CFR part 3020 subpart B, the Postal Service filed a formal request to add Priority Mail Contract 13 to the Competitive Product List as a separate

product.³ The Postal Service asserts that the Priority Mail Contract 13 product is a competitive product “not of general applicability” within the meaning of 39 U.S.C. 3632(b)(3). This Request has been assigned Docket No. MC2009–29.

In support of its Notice and Request, the Postal Service filed the following materials: (1) A redacted version of the contract which, among other things, provides that the contract will expire 3 years from the effective date, which is proposed to be the day that the Commission issues all regulatory approvals;⁴ (2) requested changes in the Mail Classification Schedule product list;⁵ (3) a Statement of Supporting Justification as required by 39 CFR 3020.32;⁶ and (4) certification of compliance with 39 U.S.C. 3633(a).⁷

In the Statement of Supporting Justification, Mary Prince Anderson, Acting Manager, Sales and Communications, Expedited Shipping, asserts that the service to be provided under the contract will cover its attributable costs, make a positive contribution to coverage of institutional costs, and will increase contribution toward the requisite 5.5 percent of the Postal Service's total institutional costs. Request, Attachment B, at 1. W. Ashley Lyons, Manager, Corporate Financial Planning, Finance Department, certifies that the contract complies with 39 U.S.C. 3633(a). Notice, Attachment B.

The Postal Service filed much of the supporting materials, including the unredacted contract, under seal. In its Notice, the Postal Service maintains that the contract and related financial information, including the customer's name and the accompanying analyses that provide prices, terms, conditions, and financial projections, should remain confidential. Notice at 2–3.

In Order No. 224, the Commission gave notice of the two dockets, requested supplemental information, appointed a public representative, and provided the public with an opportunity to comment.⁸ On June 23, 2009, the Postal Service filed the supplemental information requested.⁹
