

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List Proposed Addition and Deletions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed Addition to and Deletions From Procurement List.

SUMMARY: The Committee is proposing to add to the Procurement List a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, and to delete products previously furnished by such agencies.

Comments Must Be Received on or Before: 9/7/2009.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Jefferson Plaza 2, Suite 10800, 1421 Jefferson Davis Highway, Arlington, Virginia 22202-3259.

For Further Information or to Submit Comments Contact: Barry S. Lineback, Telephone: (703) 603-7740, Fax: (703) 603-0655, or e-mail CMTEFedReg@AbilityOne.gov.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Addition

If the Committee approves the proposed addition, the entities of the Federal Government identified in this notice for the service will be required to furnish the service listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other

than the small organizations that will furnish the service to the Government.

2. If approved, the action will result in authorizing small entities to furnish the service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

End of Certification

The following service is proposed for addition to the Procurement List for provision by the nonprofit agency listed:

Service

Service Type/Location: Base Supply Center, USCG Sand Island, 400 Sand Island Parkway, Honolulu, HI.

NPA: South Texas Lighthouse for the Blind, Corpus Christi, TX.

Contracting Activity: Dept. of Homeland Security, U.S. Coast Guard, ISC, Honolulu, HI.

POLICY JUSTIFICATION

Kuwait – KC-130J Multi-mission Aircraft

The Government of Kuwait has requested a possible sale of 8 KC-130J Multi-mission Cargo Refueling Aircraft, 32 AE-2100D3 Turbo propeller engines installed, 8 spare AE-2100D3 Turbo propeller engines, 4 AN/ALR-56M Radar Warning Receivers, 4 AN/AAR-47 Missile Approach Warning Systems, 4 AN/ALE-47 Countermeasures Dispenser Sets, 20 AN/ARC-210 (RT-1851A(U)) Very High Frequency/Ultra High Frequency HAVEQUICK/Single Channel Ground and Airborne Radio Systems, spare and repair parts, support equipment, publications and technical documentation, warranties, aircraft ferry support, personnel training and training equipment, U.S. Government and contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$1.8 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait needs these aircraft to strengthen its tactical and operating capabilities with its defense network. The aircraft will provide enhanced airlift capability, and with the refueling capability, add significant operational flexibility by extending the range of Kuwait's air defense aircraft.

The proposed sale of these aircraft will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Aeronautics Company in Marietta, Georgia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 09-30**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The KC-130J aircraft is a multi-mission tactical tanker/transport which is designed to provide support required by Marine Air Ground Task Forces. The aircraft is a versatile asset that provides in-flight refueling to tactical aircraft and helicopters as well as rapid ground refueling when required. Additional tasks performed include aerial delivery of troops and cargo, emergency resupply into unimproved landing zones within the objective or designated operating area, airborne Direct Air Support Center, emergency medevac, evacuation missions and a myriad of other support missions as dictated by circumstance. The KC-130J contains systems that include sensitive state-of-the-art technology to assist in mission accomplishment and enhance survivability during operations. Specific sensitive equipment associated with the sale is as follows:

a. The AN/ALR-56M Radar Warning Receiver (RWR) is designed to detect incoming radar signals, identify and characterize those signals to a specific threat, and alert the aircrew through the Tactical Electronic Warfare System display. The system consists of external antennae mounted on the fuselage and wing tips. The solid state ALR-56 is based on a digitally-controlled dual channel receiver that scans within a specific frequency spectrum and is capable of adjusting to threat changes by modifications to the software. The RWR will not be provided In Country Reprogramming capability.

b. The AN/AAR-47 Missile Approach Warning System warns of threat missile approach by detecting radiation associated with the rocket motor and automatically initiates flare ejection. The system is a passive Electro-Optic Missile Warning System designed to provide warning of Surface to Air Missiles and pass information to Airborne Electronic Countermeasures systems to launch chaff and flares. The system operates through sensors located in four quadrants on the aircraft.

c. The AN/ALE-47 Countermeasures Dispenser Set provides an integrated, threat-adaptive, computer controlled capability for dispensing expendable decoys. The ALE-47 system enhances aircraft survivability in sophisticated threat environments. The system is designed to provide the capability of automatic or pilot commanded response, and works alone or in coordination with other defensive countermeasures systems to defeat airborne and ground based threats.

d. The AN/ARC-210 TALON Very High Frequency/Ultra High Frequency (VHF/UHF) HAVEQUICK/Single Channel Ground and Airborne Radio Systems (SINCGARS) multimode communications system can operate in an Electronic Counter Countermeasures (ECCM) type VHF/UHF radio system. The system combines digital radio technology and software reprogrammability for exceptional performance, capability and flexibility. It provides multimode voice and data communications in normal, secure and jam-resistant modes over the V/UHF spectrum. This system (which includes HAVEQUICK I and HAVEQUICK II and SINCGARS capability) provides full interoperability with U.S. and allied forces operating in theater.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
