#### A.4 CATEXs Requiring Documentation

The following are categorical exclusions that require preparation of a checklist to ensure that no extraordinary circumstances exist that would require preparation of an EA or EIS. Checklists may be obtained from the Master Planner at 3700 North Capitol Street, NW., Washington, DC 20011.

A.4(a) Expansion or improvement of an existing facility where all of the following conditions are met:

A.4(a)(1) The structure and proposed use are substantially in compliance with local planning and zoning and any applicable State or Federal requirements;

A.4(a)(2) The proposed use will only slightly increase the number of motor vehicles at the facility;

A.4(a)(3) The site and the scale of construction are consistent with those of existing adjacent or nearby buildings; and

A.4(a)(4) There is no evidence of environmental controversy.

A.4(b) Transfer or disposal of real property to State or local agencies for

preservation or protection of wildlife conservation and historic monument purposes.

A.4(c) Disposal of fixtures, related personal property, demountable structures, and transmission lines in accordance with management requirements.

A.4(d) Disposal of properties where the size, area, topography, and zoning are similar to existing surrounding properties and/or where current and reasonable anticipated uses are or would be similar to current surrounding uses (*e.g.*, commercial store in a commercial strip, warehouse in an urban complex, office building in downtown area, row house or vacant lot in an urban area).

A.4(e) Demolition, removal and disposal of debris from the demolition or improvement of buildings and other structures neither on nor eligible for listing on the National Register of Historic Places and when under applicable regulations (*i.e.*, removal of asbestos, polychlorinated biphenyls (PCBs), and other hazardous material) when other environmental laws and regulations will be satisfied prior to demolition, removal and disposal.

A.4(f) Relocations and realignments of employees and/or residents from one geographic area to another that: Fall below the thresholds for reportable actions and do not involve related activities such as construction, renovation, or demolition activities that would otherwise require an EA or an EIS to impellent. This includes reorganization and reassignments with no changes in employee and/or resident status, and routine administrative reorganizations and consolidations.

#### Appendix B to Part 200: The Action Requiring an Environmental Assessment

The following actions are not considered to be major Federal actions significantly affecting the quality of the human environment and; therefore, require an Environmental Impact Statement (EIS) nor are considered a categorical exclusion as defined in these regulations and would require the preparation of an Environmental Assessment (EA):

B.1 Construction on previously disturbed property where there is the potential for a increase in traffic and people.

#### Appendix C to Part 200: Actions Requiring Environmental Impact Statement

The following actions are considered to be major Federal actions significantly affecting the quality of the human environment, and therefore must be the subjects of EIS, as indicates may have significant environmental effects:

C.1 Acquisition of space by Federal construction or lease construction, or expansion or improvement of an existing facility, where one or more of the following applies:

C.1(a) The structure and/or proposed use are not substantially consistent with local planning and zoning or any applicable State or Federal requirements.

C.1(b) The proposed use will substantially increase the number of motor vehicles at the facility.

C.1(c) The site and scale of construction are not consistent with those of existing adjacent or nearby buildings.

C.1(d) There is evidence of current or potential environmental controversy.

C.2 Space acquisition programs projected for a substantial geographical area (*e.g.*, a metropolitan area) for a 3-to-5-year period or greater (**Note:** A Programmatic EIS is often appropriate here, from which subsequent EISs and EAs can be tiered).

**SUPPLEMENTARY INFORMATION:** On July 31, 2009 (74 FR 38154), EPA published an NPR to determine that the West Virginia portions of three nonattainment areas have clean data for the 1997 PM<sub>2.5</sub> NAAQS. In the preamble of this

document, EPA inadvertently omitted a partial county that is part of the West Virginia portion of the Parkersburg-Marietta WV-OH nonattainment area. This action corrects the omission of the Grant Tax District in Pleasants County as part of the West Virginia portion of the nonattainment area.

#### Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this correction to the proposed determination that the West Virginia portions of the Hagerstown-Martinsburg, Parkersburg-Marietta, and Wheeling nonattainment areas have clean data for the 1997 PM<sub>2.5</sub> standard does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

#### Correction

In rule document E9-18393, on page 38154, in the issue of July 31, 2009, the second sentence of the Summary is corrected to read: "These are Berkeley County, part of the Hagerstown-Martinsburg MD-WV nonattainment area; Wood County and the Grant Tax District in Pleasants County, part of the Parkersburg-Marietta WV-OH nonattainment area; and Marshall County and Ohio County, part of the Wheeling WV-OH nonattainment area, hereinafter referred to in this notice as the West Virginia portions of the Hagerstown-Martinsburg, Parkersburg-Marietta, and Wheeling PM<sub>2.5</sub> nonattainment areas."

Also, on page 38156, the last sentence of Section III is corrected to read: "The Hagerstown-Martinsburg nonattainment area (Berkeley County, WV and Washington County, MD), the Parkersburg-Marietta nonattainment area (Wood County, WV, the Grant Tax District in Pleasants County, WV, and Washington County, OH), and the Wheeling nonattainment area (Marshall County, WV, Ohio County, WV, and Belmont County, OH) were designated nonattainment for the 1997 PM<sub>2.5</sub> NAAQS (see 40 CFR part 81)."

Dated: August 19, 2009.
