(4) Provide periodic reports as required by the Agency. A financial status report and a project performance report will be required on a semi-annual basis. The financial status report must show how cooperative agreement funds have been used to date and project the funds needed and their purposes for the next quarter. A final report may serve as the last semi-annual report. Cooperators must constantly monitor performance to ensure that time schedules are being met and projected goals by time periods are being accomplished. The project performance reports must include the following:

a. A comparison of actual accomplishments to the objectives for that period.

b. Reasons why established objectives were not met, if applicable.

c. Reasons for any problems, delays, or adverse conditions which will affect attainment of overall program objectives, prevent meeting time schedules or objectives, or preclude the attainment of particular objectives during established time periods. This disclosure must be accomplished by a statement of the action taken or planned to resolve the situation.

d. Objectives and timetables established for the next reporting period.

e. The final report will also address the following:

(i) What have been the most challenging or unexpected aspects of this program?

(ii) What advice you would give to other organizations planning a similar program? These should include strengths and limitations of the program. If you had the opportunity, what would you have done differently?

(iii) If an innovative approach was used successfully, the cooperator should describe their program in detail so that other organizations might consider replication in their areas.

5. Provide Financial Management Systems which will include:

a. Records that identify adequately the source and application of funds for cooperative agreement supported activities. Those records must contain information pertaining to grant and cooperative agreement awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

b. Effective control over and accountability for all funds, property, and other assets. Cooperator must adequately safeguard all such assets and

ensure that they are used solely for authorized purposes.

c. Accounting records supported by source documentation.

6. Retain financial records, supporting documents, statistical records, and all other records pertinent to the cooperative agreement for a period of at least 3 years after closing, except that the records must be retained beyond the 3-year period if audit findings have not been resolved. Microfilm or photocopies or similar methods may be substituted in lieu of original records. The Agency and the Comptroller General of the United States, or any of their duly authorized representatives, must have access to any books, documents, papers, and records of the Cooperator that are pertinent to the specific cooperative agreement program for the purpose of making audits, examinations, excerpts, and transcripts.

7. Not encumber, transfer, or dispose of the equipment or any part thereof, acquired wholly or in part with Agency funds without the written consent of the Agency.

8. Not duplicate other program purposes for which monies have been received, are committed, or are applied to from other sources (public or private).

9. Immediately refund to the Agency, at the end of the Agreement, any balance of unobligated funds received from the Agency.

The Agency agrees that it will:

1. Assist in defraying the project cost by reimbursing or advancing to the Cooperator under this Agreement an amount not to exceed [Funding Amount \$XX]. The funds will be reimbursed or advanced in accordance with applicable Federal regulations based on submission to the Agency by the Cooperator of a complete Standard Form 270.

2. Monitor the program as it is being implemented and operated.

3. Evaluate the performance reports submitted by the Cooperator and recommend revisions where necessary.

4. Halt activity, after written notice, if project objectives are not met.
