#### IV. Provision of the Final Notice

##### A. Differences Between AOA's Standards and Requirements for Accreditation and Medicare's Conditions and Survey Requirements

We compared AOA's hospital accreditation requirements and survey process with the Medicare CoPs and survey process as outlined in the State Operations Manual (SOM). Our review and evaluation of AOA's deeming application, which were conducted as described in section III of this final notice, yielded the following:

- AOA revised its standards to ensure that a medical history and physical is completed and documented in accordance with the requirements at § 482.51(b)(1).
- To meet the requirements in the SOM Appendix A, AOA amended its surveyor team handbook to ensure all hospital survey teams include a Registered Nurse.
- AOA modified its policies related to the accreditation effective date in accordance with the requirements at § 489.13.
- AOA modified its policies regarding timeframes for sending and receiving a plan of correction (PoC) in accordance with section 2728 of the SOM.
- AOA revised its policies to include timeframes for investigation of complaints in accordance with the requirements at section 5075.9 of the SOM.
- AOA developed and implemented internal monitoring procedures to ensure its surveyors are trained and qualified to meet the requirements at § 488.4(a)(4).
- AOA developed an action plan to ensure that deemed status survey files are complete, accurate, and consistent with the requirements at § 488.6(a).
- AOA developed and conducted surveyor training on the documentation of deficiencies to ensure that all cited deficiencies contain a regulatory reference, a clear and detailed description of the deficient practice, and relevant finding.
- To meet the requirements at § 488.20(a) and § 488.28(a), AOA

developed a policy to ensure that facilities with condition level non-compliance on a recertification survey submit an acceptable PoC, and receive a follow up onsite focused survey.

- To meet the requirements at section 2005A2 of the SOM, AOA revised its policies and developed an internal tracking tool to ensure that facilities with condition level non-compliance on an initial survey receive an onsite follow-up full survey.

- To meet the requirements at § 488.4(b), AOA developed and incorporated measures to improve the accuracy and consistency of data submissions to CMS.

- To meet the requirements at 2700A of the SOM, AOA revised its policies on blackout dates.

- AOA revised its accreditation decision letters to ensure that they are accurate and contain all the required elements for the CMS Regional Office to render a decision regarding the deemed status of an accredited hospital.

- To meet the survey process requirements in Appendix A of the SOM, AOA developed a policy outlining the minimum number of inpatient records required for review during a certification survey.

- AOA removed all references to mandatory consultative services from its policies to avoid potential conflict of interest issues.

- To verify AOA's continued compliance with the provisions of this final notice, CMS will conduct a follow-up corporate onsite visit within one year of the date of publication of this notice.

##### B. Term of Approval

Based on the review and observations described in section III of this final notice, we have determined that AOA's requirements for hospitals meet or exceed our requirements. Therefore, we approve AOA as a national accreditation organization for hospitals that request participation in the Medicare program, effective September 25, 2009 through September 25, 2013.
