ADDRESSES: Send comments to Jennifer Dure, Office of General Counsel, Recovery Accountability and Transparency Board, 1717 Pennsylvania Avenue, NW., Suite 700, Washington, DC 20006. Alternatively, you can e-mail comments to comments@ratb.gov. Please be sure to identify the title of the collection in the subject line.

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104–13, section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501–3520), and its implementing regulations, 5 CFR Part 1320, require Federal agencies to provide 60 days' notice to the public for comment on information collection activities before seeking approval of such activities by the Office of Management and Budget (OMB). Specifically, the Board invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) Whether the information collection activities are necessary for the Board to properly execute its functions; (ii) the accuracy of the Board's estimates of the burden of the information collection activities; (iii) ways for the Board to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for the Board to

Below is a brief summary of the proposed information collection:

Title of Collection:

FederalReporting.gov Recipient Registration System.

OMB Control No.: 0430–0002.

Description: Section 1512 of the American Recovery and Reinvestment Act of 2009, Public Law 111–5, 123 Stat. 115 (Recovery Act), requires recipients of Recovery Act funds to report on the use of those funds. These reports are to be submitted to FederalReporting.gov, and certain information from these reports will later be posted to the publically available Web site Recovery.gov.

The FederalReporting.gov Recipient Registration System (FRRS) was developed to protect the Board and FederalReporting.gov users from individuals seeking to gain unauthorized access to user accounts on FederalReporting.gov. FRRS is used for the purpose of verifying the identity of the user; allowing users to establish an account on FederalReporting.gov; providing users access to their FederalReporting.gov account for reporting data; allowing users to customize, update, or terminate their accounts with FederalReporting.gov; renewing or revoking a user's account on FederalReporting.gov, thereby protecting FederalReporting.gov and FederalReporting.gov users from potential harm caused by individuals with malicious intentions gaining unauthorized access to the system.

To assist in this goal, FRRS will collect a registrant's name, email address, telephone number and extension, three security questions and answers, and, by way of a DUNS number, organization information. The person registering for FederalReporting.gov will generate a self-assigned password that will be stored on the FRRS, but will only be accessible to the registering individual.

Affected Public: Private sector and state, local, and tribal governments.

Title: Application for Permit, Non-Federal Commercial Use of Roads Restricted by Order

OMB Number: 0596–0016.

Expiration Date of Approval: Three years after OMB approves the information collection.

Type of Request: Extension of a currently approved collection

Abstract: Authority for road use permits is derived from the National Forest Roads and Trails Act (Pub. L. 88–657, 16 U.S.C. 532–538, as amended). The law authorizes the Secretary of Agriculture to establish procedures for sharing investments in roads and to require commercial users to perform road maintenance commensurate with their use of roads. Detailed implementing regulations are contained in Title 36, Code of Federal Regulations, sections 212.5, 212.9, and 261.54. Title 36, CFR 212.5 and 212.9 authorizes the Chief of the Forest Service to establish procedures for investment sharing and to require commercial users to perform road maintenance commensurate with use. Title 36, CFR 261.54 contains a national prohibition against using a

National Forest System road for commercial hauling without a permit or written authorization when so provided by order. Forest Service policies implementing the regulations are found in Forest Service Manual chapter 7730 and Forest Service Handbook 7709.59, chapter 24. The policies require forest supervisors to enter into appropriate investment sharing arrangements, to require commercial users of National Forest System roads to perform road maintenance commensurate with their use, and to issue orders that implement the national prohibition at 36 CFR 261.54. These policies assure that those commercial haulers not already operating under investment and maintenance sharing provisions contained in Forest Service permits and contracts will obtain road use permits. The road use permits they obtain contain requirements for maintenance and investment sharing.

FS–7700–40—Application for Permit for Non-Federal Commercial Use of Roads Restricted by Order. This form is used by individuals, corporations, or organizations that apply for a permit to use National Forest System roads for non-Federal commercial use. The following information is collected: (1) Name, address, and telephone number; (2) identification by Forest Service route number of roads to be used; (3) purpose of use; (4) use schedule; and (5) plans for future use. The requester submits the information to the forest supervisor or district ranger responsible for the National Forest System roads on which commercial vehicular use is requested. Engineering personnel on the staff of the responsible National Forest System unit evaluate the information. The information is used by the local offices to identify road maintenance required as a direct result of the applicant’s vehicular traffic and to calculate the applicant’s commensurate share of road maintenance. The information is also used to calculate collections for recovery of past Federal investments in roads when that method of sharing investment is appropriate. The information is only used by the Forest Service’s local offices. It is not reported to or summarized at higher levels of the organization.

The identifying information collected on FS–7700–40 is used on FS–7700–41—Road Use Permit to identify the permittee and the routes authorized for use. Road maintenance requirements, road use schedules, and any necessary fees developed from the data submitted on FS–7700–40 are also included in provisions of the 7700–41. A copy of the 7700–41 must be carried in commercial
