Dates of Meeting: October 13-15, 2009.

Place: Two White Flint North (TWFN) Auditorium, Nuclear Regulatory Commission, 11545 Rockville Pike, Rockville, MD 20852.

Time: 9 a.m. to 5:30 p.m.

SUPPLEMENTARY INFORMATION:

Background: Nine Federal agencies have been cooperating under a Memorandum of Understanding (MOU) on the research and development of multimedia environmental models. The MOU, which was revised in 2006, continues an effort that began in 2001. It establishes a framework for facilitating cooperation and coordination among the following agencies (the specific research organization within the agency is in parenthesis): National Science Foundation; U.S. Army Corps of Engineers (Engineer Research and Development Center); U.S. Department of Agriculture (Natural Resources Conservation Service); U.S. Department of Energy (Office of Biological and Environmental Research); U.S. Environmental Protection Agency; U.S. Geological Survey; U.S. National Oceanographic and Atmosphere Administration; U.S. Nuclear Regulatory Commission (Office of Nuclear Regulatory Research); and U.S. Bureau of Reclamation. These agencies are cooperating and coordinating in the research and development (R&D) of multimedia environmental models, software and related databases, including development, enhancements, applications and assessments of site specific, generic, and process-oriented multimedia environmental models as they pertain to human and environmental health risk assessment. Multimedia model development and simulation supports interagency interests in risk assessment, uncertainty analyses, water supply issues and contaminant transport.

Purpose of the Public Meeting: The annual public meeting and workshop provides an opportunity for the scientific community, other Federal and State agencies, and the public to be briefed on ISCMEM activities and their initiatives for the upcoming year, and to discuss technological advancements in multimedia environmental modeling.

Proposed Agenda: The ISCMEM Chair will open the meeting with a brief overview of the goals of the MOU and an update on current activities of ISCMEM. This introduction will be followed by a series of invited presentations starting on Tuesday morning, Oct 13, and ending on Thursday afternoon, Oct 15. A detailed agenda with presentation titles and speakers will be posted on the MOU public Web site: <http://www.environmental-modeling.org>. The topics covered will include: Environmental modeling frameworks, databases and cyberinfrastructure, community modeling efforts, parameter estimation, uncertainty and sensitivity analyses, optimization modeling, reactive transport modeling, watershed and distributed water quality modeling, modeling of ecosystem services and ecosystem functions.

Meeting Access: The auditorium of the U.S. Nuclear Regulatory Commission Headquarters building at 11545 Rockville Pike, Rockville, MD is across the street from the White Flint Metro stop. The most convenient transportation to the meeting venue is via Metro since there is extremely limited on-street parking. Please take Metro to the White Flint Metro stop on the Red Line. United States v. Microsemi Corporation; Proposed Final Judgment and Competitive Impact Statement

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b)-(h), that a proposed Final Judgment and Competitive Impact Statement have been filed with the United States District Court for the Central District of California in *United States v. Microsemi Corporation*, Civil Action No. 8:09-CV-00275-AG-AN. On December 18, 2008, the United States filed a Complaint alleging Microsemi Corporation's July 14, 2008 acquisition of the assets of Semicoa violated Section 7 of the Clayton Act, 15 U.S.C. 18, and Section 2 of the Sherman Act, 15 U.S.C. 2. The United States alleged that this acquisition enabled Microsemi to eliminate or reduce competition in the development, manufacture, and sale of certain small signal transistors and ultrafast recovery rectifier diodes used in military and space programs. The proposed Final Judgment, filed on August 20, 2009, requires that Microsemi divest all of the assets it acquired from Semicoa. A Competitive Impact Statement filed by the United States describes the Complaint, the proposed Final Judgment, the industry, and the remedies available to private litigants who may have been injured by the alleged violation.

Copies of the Complaint, proposed Final Judgment, and Competitive Impact Statement are available for inspection at the Department of Justice, Antitrust Division, Antitrust Documents Group, 450 Fifth Street, NW., Suite 1010, Washington, DC 20530 (telephone: 202-514-2481), on the Department of Justice's Web site at <http://www.usdoj.gov/atr>, and at the Office of the Clerk of the United States District Court for the Central District of California, Southern Division.
